ATTENDED FACULTY DEVELOPMENT PROGRAM (FDP)

Department	Zoology
Name of the Event	Attended Faculty Development Program (FDP) at St. Francis college, Begumpet
Title	“Leadership building and Professionalism at work place”.
Date	19.07.2019
Resource Persons	Dr Anantha Pillai
Participants	Zoology Faculty-2
Venue	Seminar Hall, College Campus, St. Francis College for Women
Objective of the Event	To obtain leadership and professionalism in career.
Outcome of the Event	It is well understood from the program that one should have passion which is the big ability of a leader.

Faculty from Dept. of Zoology, Dr. Gomathi. K and Dr. Jharna attended FDP on “Leadership building and Professionalism at workplace” organized by Faculty Professional Development Cell, St. Francis College for Women, Hyderabad. The lecture delivered by the Resource person Bro. Anand Pillai, was highly inspiring and motivating. His talk emphasized on passion to excel in our career. He advised faculty to proactively identify ambitious goals and over achieve them. It involves limitless thinking and self-directed behaviour. It is well understood from the program that one should have passion which is the big ability of a leader.

GUEST LECTURE ON ISOLATION OF DNA AND DNA FINGERPRINTING

Department	Zoology
Name of the Event	Guest Lecture
Title	Isolation of DNA and DNA Fingerprinting
Date	22.07.2019
Resource Persons	Dr Rachana Kumari, Asst. Prof, Bhavan's Vivekananda college
Participants	65, BZC I, II, III Year students
Venue	Montford Hall
Objective of the Event	To inculcate knowledge on the basic structure and isolation of DNA, its application in Fingerprinting technique
Outcome of the Event	Students obtained knowledge on the latest instruments and the techniques used in fingerprinting.

A guest lecture was organised by the department of Zoology on 2nd July 2019. Dr Rachana Kumari, Assistant Professor from Department of Genetics, Bhavans Vivekananda College of Science, Humanities and Commerce delivered a lecture on "Isolation of DNA and DNA fingerprinting". She shared her knowledge on the basic structure and Isolation of DNA and its application in DNA Fingerprinting technique. She also highlighted the case studies, latest instruments and the techniques used in fingerprinting. This technique is most useful in paternity cases, criminology, and wildlife crime detection. The students gained immense knowledge about the most advanced branch of Molecular Biology from an eminent teacher.

ATTENDED NATIONAL CONFERENCE ON CLINICAL RESEARCH & ROLE OF ETHICAL COMMITTEE ACCORDING TO THE ICMR GUIDELINES

Department	Zoology
Name of the Event	Attended National Conference
Title	“Clinical Research and Role of Ethical Committee According to the ICMR Guidelines”
Date	30.07.2019 & 31.07.2019
Resource Persons	Dr. Shashi Bala, NIPER, Prof. PP. Reddy, Mahavir Hospital, Dr. Suresh, NARFBR, Dr. Mahesh, CCMB
Participants	Faculty of Zoology
Venue	Conference Hall, Osmania University, Hyderabad
Objective of the Event	To enhance knowledge in the area of clinical research.
Outcome of the Event	The conference dealt with growing needs of scientific, clinical research, and the guidelines in detail.

Faculty of Zoology, Dr. Gomathi. K and Dr. Jharna. P attended the National Conference on “**Clinical Research and Role of Ethical Committee according to the ICMR Guidelines**”. Dr. Shashi Bala, NIPER, Prof. PP. Reddy, Mahavir Hospital, Dr. Suresh, NARFBR, Dr. Mahesh, CCMB delivered lectures about current trends in Clinical Research, role of ethical committee and the guidelines according to the committee. All the lectures delivered by the ethical committee experts have enhanced the participant’s knowledge in the area of clinical research. Research on human and animals needs ethical committee approval as per latest ICMR guidelines. Over all the sessions were very informative.

FIELD TRIP TO NATURAL HISTORY MUSEUM OF ZOOLOGY, OU

Department	Zoology
Name of the Event	Field Trip
Title	Field Trip to Natural History Museum of Zoology Department Osmania University
Date	27.08.2019
Resource Persons	Prof. Srinivasulu
Participants	40 students of BZC III- and II-year
Venue	Natural History Museum of Zoology Department, Osmania University
Objective of the Event	Opportunity to see the rare specimens and skeleton of fossilised animals well preserved.
Outcome of the Event	Study of fossil and specimens had given opportunity to see the diverse animal species and the techniques of preservation.

The Department of Zoology had organised a field trip to the museum of the Zoology department in Osmania university on 27th August 2019. The Natural History Museum of Zoology Department is one of its kinds in the Indian subcontinent being a repository to specimens of rare animals and fossils that have been collected from different parts of the world. BSc BZC III- and II-year students visited the museum. There were many preserved specimens of invertebrates, vertebrates, skeletons, and fossilised remains in the museum. The students had an opportunity to see the rare specimens and skeleton of fossilised animals well preserved.

PRESENTED PAPER IN NATIONAL CONFERENCE AT NIZAM COLLEGE

Department	Zoology
Name of the Event	Presented paper in National Conference at Nizam college, Hyderabad
Title	Environment, Biodiversity, Climate Change and Human Health
Date	25-26.09.2019
Title of the Presented Paper	Dr. Gomathi. and co-authors presented paper on “The threat of vector borne disease Dengue due to the impact of urbanization in Telangana region” & “Trash management by Crapbin service: A novel and holistic
Participants	Faculty, Zoology Department
Venue	Auditorium, Centenary Block, Nizam College, Hyderabad.
Objective of the Event	Presented paper at the National Conference.
Outcome of the Event	Attending and presenting paper at scientific meets helps in getting acquaintance with the researchers and update the recent advancements in the field.

Faculty of the department of Zoology Dr. Gomathi. K and Dr. Jharna. P attended and presented papers (oral presentation) at two days National conference on Environment, Biodiversity, Climate Change and Human Health Organized by Department of Zoology, Nizam College, Hyderabad on 25-26.09.2019.

Dr. Gomathi and co-authors presented paper on “**The threat of vector borne disease Dengue due to the impact of urbanization in Telangana region**”.

Dr. Jharna and co-authors presented paper on “**Trash management by Crapbin service: A novel and holistic approach**”.

PRESENTED PAPER IN INTERNATIONAL CONFERENCE

Department	Zoology
Name of the Event	Presented paper in Two days International Conference at St. Pious X Degree college, Hyderabad
Title	International Conference on Innovations and Applications in Basic and Applied Sciences for Sustainable Development
Date	06.12.2019-07.12.2019
Title of the paper presented	Dr. Jharna & Dr. Gomathi. K presented paper on “Innovative Method of Waste Management in Hyderabad by Crapbin Service: A Novel and Holistic Approach”.
Participants	Faculty, Zoology Department
Venue	St. Pious X Degree & PG College
Objective of the Event	Paper was presentation on sustainability
Outcome of the Event	The paper presentation helps in publishing the research work as well as in getting acquainted with the scientific community.

Dr. Jharna. P, Faculty from Department of Zoology, attended and presented paper (oral presentation) at two days international conference on “Innovations and applications in basic and applied sciences for sustainable development” in the year 2019 organized by St. Pious x Degree & PG college, Hyderabad.

Dr. Jharna and co-authors presented paper on “Innovative Method of Waste Management in Hyderabad by Crapbin Service: A Novel and Holistic Approach”.

INTERCOLLEGIATE COMPETITIONS, FESTA LITERERIA

Department	Zoology
Name of the Event	Intercollegiate competitions, Festa Litereria
Title	“Mock CID”
Date	30.12.2019
Participants	45 students, Inter college
Venue	Zoology lab, and LFDC Campus
Objective of the Event	A mock crime scene was created, the participants had to identify the clue given in the crime scene
Outcome of the Event	The event helped in enhancing their skill, co-ordination and imagination in a scientific manner.

Intercollegiate competitions Festa Litereria were organised by the college on 30th December 2019. The Department of zoology conducted the event “**Mock CID**”, on 30.12.2019. 15 teams with three participants in each team participated in the event, there were four rounds. The preliminary round was conducted in the Zoology lab, a mock crime scene was created, the participants had to identify the clue given in the crime scene. The teams who were able to crack the riddle first were selected. Four teams were able to crack the clue enter the second level. In the second level some hidden clues were led them to the final level. The winners were the team who reported first and identified the culprit. This event helped in enhancing their skill, co-ordination and imagination in a scientific manner. Sai Charan, Nikhil and Prasanna of BZC III year bagged the first prize.

INTRA COLLEGIATE COMPETITIONS

Department	Zoology
Name of the Event	Intra collegiate competitions
Title	“Zoon Quiz”
Date	6.01.2020
Participants	50 students from different courses
Venue	Seminar Hall and College Campus
Objective of the Event	To explore and ignite the young minds about the animals on this planet & its conservation.
Outcome of the Event	This quiz has helped students to explore their identification and exploring skills about unknown facts of animals.

The department of Zoology conducted a competition called “Zoon Quiz” to explore and ignite the young minds about the animals on this planet. In today’s world the nature and wild life is threatened due to various factors, to emphasize the importance of conservation this particular competition was conducted.

This quiz has helped students to explore their identification and exploring skills about unknown facts of animals. Ramakrishna and Ranjith from BTMC and BZC III year bagged the first prize followed by Prasanna and Manisha of BZC III who got second.

NATIONAL LEVEL WORKSHOP ON “ARHAM PURUSHAKAR MEDITATION”

Department	Zoology
Name of the Event	National level workshop
Title	National level workshop on “ARHAM PURUSHAKAR MEDITATION” (APM) colour mantra, and form therapies.
Date	17.01.2020
Resource Persons	Mrs. Sapna Kothari, AP Head-ArhamVijja Foundation, Hyderabad
Participants	45 Faculty and students
Venue	Montford Hall, LFDC
Objective of the Event	Highlighting the benefits of Colour, Mantra and Form therapies of APM.
Outcome of the Event	Very informative to participants in the view of understanding vital aspects of one’s life such as exploring potential, increasing mental clarity, relieving chronic diseases, enhancing energy levels, eliminating stress and increasing productivity.

The Department of Zoology, organized a one-day National level workshop on “**ARHAM PURUSHAKAR MEDITATION**” (APM) colour mantra, and form therapies.

The Resource Person, Mrs. Sapna Kothari, AP Head-ArhamVijja Foundation, Hyderabad, highlighted on the benefits of Colour, Mantra and Form therapies of APM. The session focussed on exploring the self-potential, enhancing energy levels, peace & joy. The colour therapy is a non-invasive holistic treatment which aims to balance the energy levels of the body. It’s used as a complimentary therapy along with other treatments to ailments, depression and stress. The colour therapy is proven scientifically to affect the mood and perception and it is having a history dating back to ancient Egypt, China and India. A practical session was also conducted for the faculty members, the importance of colours, their different frequencies and their effect on the mind and body was demonstrated.

ATTENDED GUEST LECTURE ORGANIZED BY TELANGANA ACADEMY OF SCIENCES

Department	Zoology
Name of the Event	Guest Lecture organized by Telangana Academy of Sciences
Title	“CRISPR- Cas 9 nano tool for editing DNA” from bacterial immunity to genome editing tools”
Date	24.01.2020
Resource Persons	Prof. Virginijus Siksnys from Institute of Biotechnology, Vilnius university, Vilnius Lithuania
Participants	Faculty and 15 students of III BZC
Venue	Seminar Hall, IICT
Objective of the Event	Opportunity to learn about CRISPER Cas 9 nano tool for editing DNA
Outcome of the Event	Dr. Virginijus Siksnys is a Scientist who is one among the pioneers of CRISPER Cas 9 technology and his lecture has updated knowledge to all in the field of Molecular Biology.

Faculty from Dept. of Zoology, Dr. Gomathi. K, Dr. Jharna. P along with the students of I, II, and III BZC have attended 8th Dr. Manohar V.N Shirodkar Memorial Lecture delivered by Prof. Virginijus Siksnys from Institute of Biotechnology, Vilnius university, Vilnius Lithuania, on topic title “CRISPR- Cas 9 nano tool for editing DNA” from bacterial immunity to genome editing tools” on 24th Jan 2020, organized by Telangana Academy of Sciences at IICT, Hyderabad.

CRISPER Cas 9 nano tool for editing DNA has revolutionized biology, agriculture and medicine. His studies demonstrated that Cas 9 could be reprogrammed with custom-designed spacers in the CRISPER array to direct it to any desired site in the genome. Faculty and students felt honoured to have attended an eminent and world-renowned Scientist who is one among the pioneers of CRISPER Cas 9 technology and his lecture has updated knowledge to all in the field of Molecular Biology.

FIELD TRIP TO INSTITUTE OF GENETICS AND HOSPITAL FOR GENETIC DISEASES, OSMANIA UNIVERSITY

Department	Zoology
Name of the Event	Field Trip
Title	Field Trip to Institute of Genetics and Hospital for Genetic Diseases, Osmania University
Date	17.02.2020
Resource Persons	Dr. Vijayalakshmi, Scientist
Participants	65 Students of BZC I, II & III year
Venue	Institute of Genetics and Hospital for Genetic Diseases, Osmania University
Objective of the Event	To create awareness and to have exposure to the research institute with State-of Art- facilities
Outcome of the Event	This field trip helped them in understanding the Genetic disorders and applications in Genetics that was included in theory in course work.

The Department of Zoology organized a field trip for the Students of BZC I, II & III year to Institute of Genetics and Hospital for Genetic Diseases on 17th February 2020. The visit was planned to create awareness and to have exposure to the research institute with State-of Art- facilities. It is a premier research organization established by Osmania University and their Mission is to conduct multidisciplinary research in genetic disorders and offer diagnostic, management and counselling services to the afflicted and their families and work towards prevention of Genetic disorders.

These studies help them in understanding the Genetic disorders & applications in Genetics that was included in the course work. The students were well explained about the activities and ongoing research at the institute by the Scientists and Research Scholars and also interacted with them as well. They were able to appraise themselves about the genetic disorders and research towards its cure.

PRESENTED LECTURE SESSION IN ONLINE WEBINAR ORGANIZED BY GLOBAL INSTITUTE OF ENGINEERING & TECHONOLOGY

Department	Zoology
Name of the Event	Presented lecture session in Online Webinar organized by Global Institute of Engineering & Technology
Title	“Planck the curve COVID-19, Recalibrate and Reassure”
Date	18.04.2020
Resource Persons & participants	Mrs. Jayanthi Reddy Dr. Gomathi. K, Dr. Jharna
Title of the lecture	“Introduction of SARS- COVID-19”, “COVID-19 Incidence and battle against it”. “Mental Health and well-being during the COVID-19 lockdown”
Venue	Online Webinar
Objective of the Event	To throw light on the COVID-19 Pandemic
Outcome of the Event	Our amazing planet is now facing a very strange situation due to the outbreak of COVID-19, Which had crippled the normal activities and these topics threw some light into the current situation.

The faculty of Zoology had been invited to deliver lecture as resource persons for one day Webinar **“Planck the curve COVID-19, Recalibrate and Reassure”** organised by the Department of Humanities and Sciences of Global Institute of Engineering and Technology, Hyderabad on 18th April 2020. Mrs. Jayanthi Reddy delivered lecture on “Introduction of SARS- COVID-19”, followed by Dr. Gomathi. K on **“COVID-19 Incidence and battle against it”**. And Dr. Jharna delivered on **“Mental Health and wellbeing during the COVID-19 lockdown”**. Our amazing planet is now facing a very strange situation due to the outbreak of COVID-19, Which had crippled the normal activities and these topics were selected to throw light into the current situation.

WEBINAR ON “EMERGING AND RE-EMERGING INFECTIOUS DISEASES”

Department	Zoology
Name of the Event	Online Webinar
Title	Webinar On “Emerging and Re-Emerging Infectious Diseases”
Date	06.05.2020
Resource Persons	Dr. K. Thangaraj - Chief Scientist, CCMB, Dr. B. Vijayalakshmi - Institute of Genetics, Dr. A. Vimala Rodhe - Silver Jubilee Govt. College, Kurnool.
Participants	165 participants, Academicians, resource persons, Students
Venue	Online Webinar
Objective of the Event	To throw light on the COVID-19 Pandemic
Outcome of the Event	Host Genetic variations and its implementation in human diseases, role of microbes in human health and role of immunity in combating diseases help us to understand the disease manifestations.

Department of Zoology is constantly working with its vision, to inculcate the highest values in scientific education. Our amazing planet is now facing a very strange situation due to the outbreak of COVID-19 and lockdown had been implemented. Taking advantage of this Lockdown, online National Web-Seminar (Webinar) had been organised on the topic “**Emerging and re-emerging infectious diseases**” on 6th May 2020.

Dr. K. Thangaraj - Chief Scientist, from CCMB, Hyderabad had delivered a lecture on “**Human Genetic variations and its implementation on infectious diseases**”, followed by Dr. Vijayalakshmi of Institute of Genetics on topic “**Role of Human body defence system in combating against infectious diseases**”. Dr Vimala Rodhe from Silver Jubilee Govt. college had delivered talk on “**Role of Microbes in Human Health**”. The participants showed great interest and actively participated in interactive sessions with the resource persons

MANAGING ROLLER COASTER OF EMOTIONS DURING COVID-19 LOCKDOWN

Department	Zoology
Name of the Event	MOU activity- Online Webinar in collaboration with Sonapur college, Assam
Title	Webinar On “Managing Roller Coaster of emotions during Covid-19 lockdown”
Date	18.06.2020
Resource Persons	Dr. Virinchi Sharma , Psychologist, delivered lecture on topic “ Rise of Anxiety in Pandemic-Effect of COVID-19 on Mental Health ” Dr. Mythili Hazarika , Psychology consultant on COVID -19 Pandemic and its multi-dimensional impact across generations ”.
Participants	145 participants, Academicians, resource persons, Students
Venue	Online platform
Objective of the Event	Understanding Mental health and well-being is important during the lockdown
Outcome of the Event	The lectures focussed on mental health promotion and how to deal with stress, anxiety and opportunity

Department of Zoology, organized a national webinar on “**Managing Roller Coaster of Emotions during COVID-19 Lockdown**”, in collaboration with Sonapur College, Sonapur, Assam. During this ongoing scenario, lockdown is highly impactful and may result in stress and traumatic reactions. This webinar was organized to prepare individuals participating in this program to face this challenging situation with ease. The resource persons, **Dr. Virinchi Sharma**, delivered lecture on topic “**Rise of Anxiety in Pandemic-Effect of COVID-19 on Mental Health**” and **Dr. Mythili Hazarika**, delivered lecture on topic “**COVID -19 Pandemic and its multidimensional impact across generations**”. Lectures delivered by experts were focussed on mental health promotion and how to deal with stress, anxiety and opportunity to build the skills and environment that support good mental health. The participants were students, research

ONE DAY ONLINE FDP ON THE ART OF SCIENTIFIC WRITING AND PROJECT DESIGNING

Department	Zoology
Name of the Event	One day Online FDP
Title	The art of scientific writing and project designing
Date	20.06.2020
Resource Persons	Dr. Anjana Munshi, Dean, School of Health Sciences & HOD, Central University of Punjab, Bathinda
Participants	45 participants, Academicians, resource persons, Students
Venue	Online platform
Objective of the Event	Understanding the scientific paper writing
Outcome of the Event	Incorporating a research component along with a sound academic foundation enables students to develop independent critical thinking skills along with oral and written communication skill

Good scientific writing and project designing means to express our ideas and processes in a logical order and also in a most structured manner. Writing a good article require two things: good content and good technique.

Taking advantage of this lockdown, an online FDP session was organised on “**The Art of Scientific Writing and Project Designing**” by Prof. Anjana Munshi, Dean, Research, Central University of Punjab, Bathinda. Faculty and research scholars from various institutes across the nation had participated to enhance and achieve skills required to excel in career, by brushing up on the “**Art of Scientific Writing and Project Designing**”. The program might have enhanced knowledge of all the participants in the midst of emineSnt guest speaker.
