LENVIN Activities

2021-22

On the occasion of World Earth Day, LENVIN club Little Flower Degree and PG College, Uppal in collaboration with the Department of Microbiology organised a drawing competition on 22nd April 2022 to educate the students about the planet and to promote awareness about conservation and the future of Earth. Students from various streams came forward to participate in the activity. They assembled and drew their idea of our planet and the steps we as humans must take to avoid harm. The students were creative and used different ways of expressing their thoughts. They gave a motivating and thoughtful tagline to their drawings and got motivated to do their part for our planet. It was concluded by a small speech from every student about their experience and learning after the activity. We received positive responses in the feedback from the students. It was a successful activity that promoted awareness about the planet, its future,

Participants attending draw your idea- Drawing competition on World Earth Day
