

## WORKSHOP ON PLANT TISSUE CULTURE

The Faculty of Biotechnology, Department of Life Sciences, Little Flower Degree College organised a workshop in association with Atlantis Phytotech at Quthbullapur on 9<sup>th</sup> August, 2023. The workshop focused on hands on training of inoculation, sterilization, and sub-culturing of the plant species. It encouraged them to explore new ideas and concepts in the field of plant biotechnology.

The workshop was open to all final year BSc. (BTMC) Life Science students. Students actively interacted with the resource person Dr. K. B. Rao (scientist). The workshop allowed students to have live experience of the PTC unit and the commercial production of the cultures.

This workshop was a great opportunity for students to develop their technical skills and research skills.
