

**LITTLE FLOWER DEGREE AND PG COLLEGE
UPPAL, HYDERABAD-500039**

The Physics Department organized an intra-collegiate competition- a group discussion on space technology on October 9, 2023 in D23 at 12.40 P.M. It helped students present their views about recent advancements in space technology and how our country's stronger diplomatic ties with other countries has a positive impact on space missions. As many as 34 students from various groups have registered and talked about how space missions (satellites) in the form of Google Maps, GPS trackers, satellite communication, could help people in their day-to-day lives.

Students presenting their views about Space Missions
