

Principal's Message

Rev. Bro. Jaico Gervasis
Principal

The world of today has become highly competitive- one trying to outdo the other, racing against time and values to amass as much wealth as possible in pursuit of pleasure. Negativity and hatred is on the increase. Gossip and media have not helped tackle this menace, but seem to be fanning the same. It is in this context that we decided to be guided by the theme 'All for peace and peace for all'. All our students went through a process of connecting with God - the source of creation and thus with whole of creation. They realize the need of loving communion of the self with the cosmos. Weeding out the elements that create division in one's own self and filling oneself with love for God, self and others is a constantly challenging task we have taken up. The transforming experience at the 'Trinergy Centre' will continue to inspire peace and tranquility leading to care for the world and share one's resources to make this world a harmonious one-as God intended.

The sense of satisfaction for the steady progress and the space at thin air altitude that we occupy today is a reason to feel grateful to God and all the others for working together to achieve something that we did not really anticipate in such a short span. The starting of the degree college at LFJC campus was the idea conceived some time ago, but got materialized during the tenure of Brother Franky Naronha who toiled hard to make it a reality. The vice principals Brs. Shajan Anthony and Maynard chipped in their resources while the college took the infant steps. Brothers John De Britto(Late) ,Jacob Mathalikkunnel, Ravi Kumar Reddy(late),Anthony Reddy A., RanjitMoovarasu, Jacob Mathalikkunnel, Lourdu Raj, Sleavea Reddy, George Joseph, Jose Varghese and Yuju Francis were all there with the necessary support as members of the Brothers' community. We have travelled long since then with spurt in growth achieved every year. The discipline, commitment, academic performance, foray into the field of research and wholesome development of the personality are all there in the air to be smelt. Little Flower's fragrance, 'Little Fragrance' has tried to capture and present the signs of that process. The effort is definitely limited as the sea cannot be captured in a seashell. The vice principal Mrs. Jayanthi Reddy remains energetic and other staff members respond with a sense of enviable commitment and availability. Records keep tumbling with a number of toppers emerging, an unprecedented 85% students being placed with reputed firms, quite a few emerging as entrepreneurs and others opting for higher education at major institutes. The college is recognized worthy to accommodate foreign students and we have admitted four of them from two countries. If this makes it international, so be it. To further our commitment to research and development we organized national and international seminars and brought out research journals. We could achieve what we have with highly cooperative parents and student's faith and openness. Many well wishers keep dropping in to help us on the way. It's another proof that goodness and talent cannot be subdued when there is selfless commitment. Ever grateful to God for his tender mercies, all the Brothers for the support, the members of the staff for the toil, students for being eager learners, parents for the co-operation and all the well wishers for the concern and timely help, it is time to sign off with a fond hope that the Montfortian aroma continues to spread far and wide with our Little Flowers!

– Br.

Jaico

Themes of the year all around and outside weekly values like water mark

Editorial

Our college magazine is beaming with enthusiasm as it exhibits the magnificent artistic splendour of creative minds. The aspirations, perspectives and cherished moments bring to lime light the vision and mission of the college. The souvenir unleashes a stock of the creative endeavours during the academic year 2016-2017. Our sincere thanks to all our teachers, students and well-wishers who contributed to bring out a wonderful edition.

Aims & Objectives

The aim of our college is to prepare our students for a meaningful life. As individuals and members of the society we try to develop the qualities of mind and heart of our students, besides their skills and aptitudes, which will enable them to become responsible contributing members of the society and the nation. In order to achieve this along with academic excellence we focus our attention on the following aspects of life.

- Person oriented aspects
- Social and cultural aspects
- Professional and work oriented aspects
- Citizen and Nation related aspects
- Universal brotherhood and international understanding. We strive to prepare the youth for life as ideal human beings.

Hearty Welcome to Our New Principal

*"Life is really very simple. What we give out we get back,
Every thought we think is creating our future."*

- Louise Hay

Teaching Fraternity 2016-17

Vice - Principal's Message

Mrs. Jayanthi Reddy. P
Vice - Principal

Literacy in itself is not education. Literacy is not the end of education or even the beginning. By education, I mean an all-round drawing out of the best in the child's body, mind and spirit.

The realities of educational institutions are unique and challenging. There are external as well as internal influences that shape a classroom and consequently the future of a student. LFDC's curriculum is constantly reviewed to ensure that we are following the updated practices for meeting the future needs of the students. Our staff consistently follows current trends and designs a plan of action to incorporate those trends that are most appropriate in classrooms.

The students of Little Flower are offered many opportunities to explore their interests and investigate new ideas. We organise various literary, cultural and sports activities to nurture the budding talent which enables the holistic development of the student. LIFE, LENVIN & NSS are organised to impart values with the aim of serving the humanity. Our goal is to develop both confidence and competence in each and every student across the broad range of interests and pursuits.

I firmly believe that every student can succeed. My dream is to ensure that all students of LFDC achieve educational excellence and become able leaders of tomorrow.

Education is only the ladder to gather fruit from the tree of knowledge but not the fruit itself.

All the best.

Physics of 5 Olympic Sports

Swimming- Olympic swimming races are often decided by tenths or hundredths of a second. Swimmers must do everything they can to reduce the water resistance against their body as they propel forward. Resistance will increase with the surface area exposed to the water, so the more streamlined a swimmer can make her body, the quicker she will go. The smoother the surface is, the better, as well, cover much of their bodies with specially designed swimsuits that mimic shark's skin or other surfaces for greater hydrodynamics. Swimmers must also think about buoyancy, the force that keeps them afloat. Because water is more resistant to movement than air, it is in athletes' best interests to swim as close to the surface as possible so that more of their bodies are exposed to the less resistant air than to the dragging water.

Gymnastics- All objects spinning around a point have a quantity called angular momentum that depends on the object's mass, speed and how spread out it is around its center of gravity. Unless some outside force interferes with the system, its angular momentum will be conserved. Thus, a gymnast can spin faster by pulling in his arms and legs as tightly as possible, thus reducing the space over which his mass is spread out. In response, the gymnast's speed will increase to make up the difference and keep his total angular momentum constant. Newton's third law of motion also plays a great role in gymnastics. Gymnasts take advantage of this by pushing hard against the floor, the balance beam or the vault, so that these surfaces push back hard against them, helping them lift into the air.

Diving-Olympic divers aim to do gorgeous twists and turns in the air, and then glide as seamlessly into the water as possible. The bigger the splash made going in, the larger the deduction taken from a diver's score. Divers also take advantage of Newton's third law. By jumping down on the diving board as hard as possible, divers can cause the board to push back up on them, giving them a larger vertical velocity to spring high into the air. The longer he is in the air, the more times a diver has to complete her somersaults.

Archery-Action and reaction play a significant role in archery as well. To shoot an arrow straight and true at a target, archers must first impart a forward force on it. To do this, an archer will pull back on the bow string, thus storing potential energy in the string. When the string is released, it imparts this potential energy to the arrow in the form of kinetic energy, propelling the arrow forward. Spin on the arrow, which can further improve its stability and accuracy by equalizing forces from air turbulence.

Badminton-Badminton is a racquet sport, where players pass a projectile called a shuttlecock or birdie, back and forth over a net. In contrast to spherical balls, shuttlecocks are balls with cones of feathers or nylon protruding from their sides, travel much differently through the air. Their feathers provoke a much larger drag force from air resistance, so they lose speed much more quickly than balls do. The feathers on a badminton shuttlecock improves its aerodynamic stability.

C. NARESH KUMAR REDDY, HOD DEPT. OF PHYSICS

Motivating yourself and others everyday

“Good things come to those who wait, but only those things left by those who hustle.” - Abraham Lincoln’s Motivation is a drive that encourages an action or a feeling . To motivate means to encourage and inspire. Motivation can also mean igniting the spark for action. Motivation is the driving force in our lives. It comes from a desire to succeed. Without success there is little pride in life; no enjoyment or excitement at work or at home. The greatest enemy of motivation is complacency (leads to lack of effort). How does it work?

Once you understand what causes motivation, you can motivate yourself and achieve your goals and you can inspire others too. Your internal motivation is your drive and attitude. External motivation comes from outside.

We are all motivated – either positively or negatively. Everyone is motivated including the person who wants to do nothing. He is motivated to do nothing.

Once I heard a story of two brothers. One was a drug addict and a drunkard who frequently beat up his family. The other was a very successful businessman who was respected in society and had a wonderful family. How could two brothers raised by the same parents, brought up in the same environment, be so different?

The first brother was asked,” What makes you do what you do? You are a drug addict, a

drunk and you beat your family. Where do you get your motivation from?”

He said, “My father.” He was asked, “What about your father?”

He said, “My father was a drug addict, a drunk and he beat his family. What do you expect me to be? That is what I am.”

The second brother was asked, “How come you are doing everything right? Where do you get your motivation from?” And guess what he said? “My father. When I was a little boy, I used to see my dad drunk and doing all the wrong things.

I made up my mind that that is not what I wanted to be.”

Both brothers derived their motivation from the same source, but one was using it positively and the other negatively.

Thoughts move logic. Emotions move feelings. Motivation moves us in action.

Staff Orientation

Seminar on

“ Equipping Teachers to Impact Students”

A seminar on ' **Equipping Teachers to Impact Students**' was organized in the college on 3-6-16, where the guest speaker Prof. Samson Gandhi and his partner aimed at developing the students psychologically and spiritually. He insisted on being firm as teachers, mentors and guides and understand the purpose of teaching. "If teachers do not practice what they teach, it becomes impossible to cut the ice with students", said Prof. Gandhi.

He emphasized on being authentic to create greater impact on the students. Teaching with authority is very important. Teachers must impart information and impress firmly upon the students' minds. He expounded the need for understanding the student in different quotients i.e, IQ, EQ, CQ, and PQ. He insisted on inculcating high self esteem in them. An activity was conducted for the teachers, where they could rate themselves as a 'compeller', 'challenger' and 'counsellor'.

He concluded by suggesting some essential steps like practicing what is right and acceptance for who they are and what they become and bid good riddance to negativity and self-centeredness.

Prof. Samson Gandhi addressing the faculty to equip the students with greater impact.

GUEST LECTURE ON LEADERSHIP AND ORGANISATION BUILDING

"A leader is one who knows the way, goes the way and shows the way". - John. C. Maxwell

A guest lecture was organized by the management of the college for the staff, on 4th June 2016. Prof. K. Nageshwar, editor of 'The Hans India', English daily, enlightened the staff about 'Leadership and Organization building.

'Leadership is management'- says Prof. K. Nageshwar . He pointed out the prominence of being an effective leader. As the quote says, "Leadership is not about position, but about action". It is about one's actions, one's behavior towards others, one's ability to make decisions, one's patient listening to the problems and being responsible in an organization. Prof. K. Nageshwar said that a lot of leadership qualities can be acquired by practice. The most important trait in a leader is to be able to work in a group. A team work will make everyone more achieving.

He elaborated the term '**TEAM**' as **T**ogether **E**veryone **A**chieve **M**ore . A team work is more effective, when an activity expands beyond an individual's capacity. In terms of educational institutions, a teacher plays a leader's role, who must train and improve a student's performance and get the best abilities out of him/her. A leader is someone who ensures synergy in an organization and gets the best results out. He stressed that knowledge comes from questions, and a good leader is one who creates an environment for allowing questions.

If one is a good leader, one would in turn be an effective organization builder. For building strong organization one must have a clear purpose, follow principles and implement the right strategies by assigning tasks to one's subordinates.

A memento was presented to Prof. K. Nageshwar, as a token of gratitude, by Rev. Bro. Jaico, the Principal of the college.

Mrs. P. Jayanthi Reddy, Vice Principal honouring Prof. K. Nageshwar with a bouquet.

Investiture Ceremony

"If your actions inspire others to dream more, learn more, do more, become more, then you are a leader". - John Quincy Adams.

On 29th August 2016, a solemn ceremony was conducted in the college auditorium. An event where the first year students look forward to be an active part of the college's duties and responsibilities. This is a ceremony where senior students stand as an epitome of responsibility and leadership for their juniors.

The program was initiated with the lighting of the lamp, by the Principal of the college, Rev. Bro. Jaico, Vice

Principal Madam Jayanthi and esteemed chief Guest of the event Mr. Sandeep Gone, ACP, Malkajgiri Zone, Cyberabad, followed by the Principal's speech.

A short video highlighted some eminent personalities, who were once the alumni of Montfort Institutions. The Principal also brought into light how the institution is known for its integrity, its dedication and commitment for the cause of justice. Giving importance to the theme of the year, "Peace for all, All for Peace, the Principal assured the students on how one must be at peace and spread peace everywhere .He also stressed on how one must value their responsibilities and abide by the righteous principles. Mr. Sandeep Gone, who graced the occasion as the chief Guest of the event, motivated the students to build a strong self-belief, never give-up attitude and honesty in themselves. Narrating some of his experiences, he displayed a picture of reality to the students, about the competitive world.

He concluded his speech by mentioning that there is no substitute for hard work. The program was further proceeded by the Oath taking ceremony, administered by honorable chief guest, to the President, the Vice President and all the club secretaries.

Igniting a high self-esteem among students, the program concluded with the National Anthem.

Rev. Bro KM Joseph Motivating the Students

Freshers Day

Welcoming the new academic year 2016-2017 with the theme of "Peace for all; All for Peace", the students of II and III year organized a youthful event for their juniors, on 10th Sept. 2016. They were welcomed with great pomp and show. The program started with the prayer song followed by the Principal's inspiring words for the students, on how they can make the best use of their skills and abilities in their current phase of life.

The Freshers' spirits were quite high during the event. All elegantly dressed girls and boys walked the ramp for the introduction round, followed by cultural events consisting of solo and group performances of dance and singing. The performances brought a swing among the freshers, who were enthusiastic to see such creative talents on stage. The anchors for the show entertained the freshers' by conducting games in between the rounds. Selected candidates came up for final round i.e., the topic round. Judges came up with the final results for Mr. & Ms. Fresher; Mr. & Ms. Confident and Mr. & Ms. Best Costume.

Students having a gala time

TEACHERS' DAY

Teachers' Day represents a significant and memorable celebration as a sign of respect, deference, gratitude and appreciation displayed for the continuous and unbiased contribution that teachers make towards education.

Fun time for teachers on the occasion of Teachers Day

The students of LFDC celebrated Teachers' Day with great fervor and enthusiasm. They arranged a few recreational events like throw ball, tug of war, badminton, tennikoit and musical chairs. The winners of the games were felicitated and gifts were presented to all the teachers for their commendable effort, encouragement and endurance which is always remembered and appreciated.

Christmas Celebrations

LFDC celebrated Pre-Christmas on 20 December 2017 in a grand manner, organized by the second and the final year students.

The college was attractively decorated to accord due prominence to the occasion – Brightly decorated Christmas tree and the setting up of the Nativity scene which included the manger, and numerous nativity figurines to reflect upon the simplicity and humility of Christ's birth. The entire stage was festooned with colorful streamers and beautiful decorations. Overriding every other emotion, a wave of cheer enveloped the college.

Students performing Skit

The event commenced with the prayer song followed by the scripture reading about the birth of the Savior. The festive spirit was witnessed among the staff and the students. The students enthralled the audience by enacting a play on '7 Deadly Sins'. They emphasized the importance of achieving perfection by overcoming 7 deadly sins and showed us the path to achieve that perfection.

Depicting the true essence of love, joy and peace, students also enacted the Nativity Scene. The presence of the shepherds, the three kings and angel Gabriel with Mary and baby Jesus gave a sense of authenticity to the play. The play was interspersed with a dance performance on the song 'Gloria in Excelsis Deo' adding to the festive atmosphere.

Soaking in the spirit of Christmas, the college choir entertained everyone with their melodious singing. A video was shown to present the significance of the Christmas day, highlighting the spirit of Christmas and the birth and sacrifice of Jesus Christ for the sake of humanity.

Nativity Scene

Our Principal Rev Bro Jaico wishing 'Merry Christmas', encouraged everyone to reflect upon their self to find peace within and to follow the path of the significance of the Christmas day.

A quiz on Christmas was also organized on the occasion. The students took part in the quiz with great interest and enthusiasm and won prizes. And the best part of the event was the gift exchange. Our Principal, Rev, Brother Jaico disclosed his Christmas friend presenting a gift and wishing his friend, and the rest of the faculty followed the same. Each one had a gift to walk away with. In the end our Principal along

Christmas cake cutting

with the faculty cut the Christmas cake. The event was concluded with the arrival of Santa Claus, filling the entire crowd with joy and dancing with great enthusiasm. All the students enjoyed the beats of "Jingle Bells" and cake was distributed to all.

SEMINAR & WORKSHOP

Dept of Commerce

Seminar on Taxation

A seminar on Over view of Taxation was organized by Dept. of Commerce on 29th June, 2016 for students of II B.Com students.

The resource person for the seminar was T. Krishna Rao, Senior Faculty from Avinash Degree College.

He introduced the students to the basics of taxation by helping them to calculate the residential status of an assessee. He explained the classification of Income into Five heads, conditions, sections and exemptions.

He gave insights on the effect of indirect taxes in our daily life. The students were interrogated on the subject to test their knowledge on the effect tax has on business as well as the common man. He spoke about the relation between direct and indirect taxes. The implementation of GST by the Govt. and its implications were also discussed. The students were enlightened on different aspects of Taxation.

Students of B.Com II year participating in the seminar

Ms. Sandhya

An overview of Cost Accounting

The Department of Commerce conducted a seminar for the students of final year B.Com on “An overview of Cost Accounting”. The resource person for the seminar was **Mr. Vijay Kiran Agastya, Chairman CMA, Associate VP, Deloitte, Hyd.**

Mr. Vijay Karan explained the importance of cost accounting in business enterprises in today's competitive world. He stressed on the need for the students to rely on cost and management accounting as it is the basis, on which managers all over the world take decisions.

He stressed the importance of cost analysis and cvp analysis. He explained the course procedure for enrollment in CMA course in detail to the students. He gave the students some tips to remember the subject better. He also enlightened the students on the career opportunities for the students opting for CMA.

Ms. Vanitha

One Day Workshop on TALLY ERP9

The students of third year B.com were taken on a field trip to National Small Industries Corporation Ltd. (NSIC) at ECIL, Hyderabad on July 29th 2016. They attended a one day workshop on “**Tally ERP9**”. The students started from college at 9:30 A.M. It was 45mints drive from Uppal. They were accompanied by one faculty member Mrs Pranitha of Commerce Department.

Mrs. Vani, Assistant Manager of NSIC, ECIL, Hyderabad, has conducted the workshop. Workshop was on learning TALLY ERP9 which is an accounting package. The workshop was of two sessions and it started at 10.30 A.M. and ended at 4:30 P.M.

SESSION 1:

Mrs. Vani has taken both the sessions. They allotted a separate computer for each student. In this session she taught the basics of tally like under groups, how to create company, ledgers and viewing reports with practical examples. Students took a test at the end of the session. The session ended at 1:30 P.M.

SESSION 2:

In this session Mrs. Vani taught about creating Inventories and Accounting vouchers and later students have practised few test problems on inventory creation and vouchers creation. Session ended at 4:30 P.M.

Seminar on Business statistics

A seminar on Business statistics was organized by the Dept. of Commerce on 20th August, 2016 for the students of II B.Com. The resource person for the seminar was Dr. A. Patrick, Asst. professor, Dept. of Commerce, Osmania University.

The students were taught the relevance of statistics in day to day life. The importance of collecting data was explained. The students were taught the methods of collecting data and the importance of processing data with the help of tables and other relevant tools. The importance of a questionnaire was also explained with the help of an example.

Dr. Patrick also stressed the need for data which is accurate to arrive at relevant conclusions. He also gave insights into sampling and its methods. The students were delighted to answer questions and play some games in statistics.

The seminar was very useful to the students who were given some food for thought and also the importance of application of statistics was explained.

Ms. Pannaga

**Dr. A. Patric, Asst. Prof. Dept. of Commerce, O.U.
Delivering a Lecture on Business Statistics**

FDP on Research Methodology

The Department of Commerce organized faculty development programme on research methodology. The resource person was Dr. Anjaneyulu, associate professor, Badruka college of commerce and Arts, Kachiguda, Hyderabad. He spoke about the steps taken for presenting the paper, the first step is selection and frame work of topics, setting of objectives, collection of data (primary and secondary) from various sources, concentrating more on how the paper is useful to the reader. He clarified doubts in the interacting session and the participants understood how to present the paper in their subsequent subject. The session came to an end by the vote of thanks.

Ms. SANDHYA

**Resource person Dr. Anjaneyulu, Associate Prof,
Badruka college of Commerce And Arts conducting Faculty Development Programme**

Field trip to Vishwa Vishwani Institute

On the day of 18th November 2016 Friday, early in the morning at 9:00 am 82 students from B.Com. Gen. & CS 3rd year along with the faculty Mr. K. Ravi Kumar Reddy and Mrs. Ayesha started from the college premises to reach Vishwa Vishwani Institute of Management with the help of in two buses and reached the institute by 10:30 am After reaching the institute we had a warm welcome by the management of Vishwa Vishwani. There after we were taken to the seminar hall, where we had a session on **the educational opportunities for the students after completion of their commerce graduation**, session was taken by **K.J.A. Swarup**. He explained the benefits of joining masters programme in Management. The session mostly focussed on the management education which is offered by the various management institutions, and the facilities available in the Vishwa Vishwani, career opportunities provided by the institute to the students if they would like join their institute. It was an interactive session between the speaker and the students. Students have raised many

queries regarding the various opportunities available for them immediately after completing their graduation. All the queries of the students were well addressed.

After the session student s had lunch provided by the Management of Vishwa Vishwani and after lunch students had been taken to visit the entire campus of Vishwa Vishwani and their infrastructure such as their classrooms, library, computer labs and other facilities which are provided by the institute, students were also allowed to interact with the students of Vishwa Vishwani. After exploring the campus and interacting with the students we started way back to our college.

Students have gained knowledge about the higher educational opportunities available to them immediately after the completion of B.Com, advantages of joining masters programme in Management and career opportunities available after the completion of the Management programme.

Students and faculty attended educational trip

INTRA-COLLEGE COMPETITION ON ENTREPRENEURSHIP

Learn to Earn

REPORT ON COMMERCE CLUB

In order to meet the challenging needs of the Corporate world it is not just sufficient for a student of commerce to be sound theoretically, but must also be exposed to the outer world in a dynamic way to face practical situations thus commerce club gives insights for the student.

Objectives:

To expose students to meet the practical challenges in the current business scenario.

To let the students interact with business experts of industry

To encourage students to become event managers

To build self confidence and proactive approach

Students Participating in "Learn to Earn"

Two day International Seminar on “Recent Trends in International Accounting & Financial Services”

The two day international seminar on “recent trend in international accounting and financial services was organised on 9th January 2017. The registration commenced by 9:30 a.m. The seminar was inaugurated by lighting of the lamp by Principal Bro. Jaico Gervasis , chief guest Prof Ch. Gopal Reddy, Registrar O.U., Guest of honor Prof. S.V. Satyanarayana, HOD, Department of Commerce O.U. , Dr. Anjaneyulu, Associate Prof. Badruka College of Commerce and Arts, Mr. V. Venketeshwar, faculty member of St. Joseph’s Institute of Management, Bangalore, Vice Principal Madam Mrs. P. Jayanthi Reddy and Mrs. Sandhya Arya, senior faculty of Department of Commerce, Little Flower Degree College, Uppal, Hyderabad.

The seminar aimed at exploring the branches of accounting and finance, which form the basis of International accounting and are a part of the internationally accepted principles. The seminar had six sessions in two days. Eminent scholars, academicians and professors from various parts of the country shared their knowledge and expertise with the participants. The participants included research scholars, academicians and students. They presented papers which were discussed by the chair. The participants were very interactive and they were benefitted tremendously by the seminar.

Keynote speakers - Mr. Santha Kumar Reddy Badhri, Management Consultant, Fujitsu America Inc., USA; Dr. Leena James, Associate Professor, Christ University, Bangalore and Sekkizhar Balasubramanian Director, Deloitte, Hyderabad.

Participants and Academicians presenting Papers

Principal Rev. Bro Jaico Gervasis, Prof. S.V. Satyanarayana, HoD, Dept. of Commerce, O.U., Prof. Ch. Gopal Reddy, Registrar, O.U., and Vice-Principal Mrs. P. Jayanthi Reddy, “Releasing the Proceedings of the International Seminar”.

Field Trip to Wipro, Gachibowli

The Department of Computer Science has organized a field trip to Wipro IT company located at Gachibowli, Hyderabad on 8th July 2016. The final year students of BCOM Computers and BSC actively took part in the field trip to learn the working atmosphere which is prevailing in the IT industry. The session started with a brief seminar given by the industry personnel and they have also explained the various career growth and higher studies opportunities available. The students showed great deal of interest. The Field trip to Wipro IT was organized by Department of Computer Science, **Mr. Raman RK**, HOD, **Mr. Vijay Reddy**, Faculty, **Ms. Lavanya**, Faculty.

The event was organized under the supervision of Bro. Jaico Gervasis, Principal, Little Flower Degree College and Mrs. Jayanthi Reddy, Vice Principal, LFDC. It also helped the students in learning the work ethics, which will help them to survive in the competitive market. After the seminar, students were taken around the campus and were shown the work culture of the employees to gain better knowledge of the employment situation. The students were accompanied by the faculty Mr. Raman RK, Mr. S.V. Vijay Reddy, and Ms. Lavanya, Dept. of Computer Science. Nearly, 100 students took part in the field trip and all of them had a new experience with respect to field trip.

Final B.Com (CS), B.Sc Students and faculty at Wipro IT, Gachibouli Campus

Networks and its scope in IT

A One-day Seminar on Networks held on 6th August, 2016 was organized by the Department of Computer Science, Little Flower Degree College. The main motive of organizing this seminar was to make the students aware of the current trends in the field of networking. Mr. Arvind Bandaru, Specialist in QA, Verizon Data Services, Hyderabad, was the resource person who provided a deep insight on the important concepts which the students have to equip related to networks and also various career opportunities were discussed during the session. The final year B.Com (CS) and B.Sc students participated with great deal of interest and clarified their doubts in the field of networks.

The Seminar on Networks was conducted by Department of Computer Science **Mr. Raman RK**, HOD, **Mr. Vijay Reddy**, Faculty, **Ms. Lavanya**, Faculty

Advanced Database Systems & UNIX

A One-day Seminar on Database held on 13th August, 2016 was organized by Department of Computer Science, Little Flower Degree College. The main motive of organizing this seminar is to make the students aware of the current trends in the field of database management. Mr. Rakesh, Trainer, Oracle, Hyderabad was the resource person to provide a deep insight on the important concepts which the students have to equip related to database and also various career opportunities were discussed during the session. Even in the session the topics about UNIX and its usage in IT field was discussed. The second year B.Com (CS) and final year B.Sc students participated with great deal of interest and clarified their doubts on the field of networks.

**Department of
Computer Science**

Mr. Rakesh, Trainer Oracle, Hyderabad delivered a lecture on Database System

A 2-Day Workshop on Python & Django

Workshop on Open Source Technology - A Two -Day Workshop on Python & Django was held on 29th October and 5th November, 2016 organized by Department of Computer Science, Little Flower Degree College. The main motive of organizing a workshop on open source was to create an exposure towards the application development using open source languages. Nearly, 70 students participated from various subject backgrounds in the workshop with great deal of interest.

On 29th October, Mr. Pabitra Kumar Pati, Trainer, Python Express has trained the students on the importance of Python language. The students were given practical training on the basics of python and later the session progressed dealing with the advanced techniques used in Python.

On 5th November, Mr. Elangovan Manivannan, Trainer, Python Express has trained the students on the importance of Django Framework with respect to Python. Around 5 members have come to train the students on the topic and the students were very keen and interested in learning the new framework. The session was concluded by demonstrating a complete django application using a web server.

The workshop was conducted from 10:00 AM to 5:00 PM and at the end students were provided with the certificate of participation in collaboration with Python Express.

Department of Computer Science

EMBEDDED SYSTEMS

A Seminar was organized for B.SC (Electronics & Physics) students by the Department of Electronics & Physics on “Embedded Systems” on 16th July, 2016 by Dr. M. Chandrasekhar, Assistant Manager, Bharat Dynamics Limited, Hyderabad. Dr. Chandrasekhar started his seminar by defining what an embedded system is and then explained the types of embedded systems, examples, programming languages used in the systems. He also explained the various opportunities available in this field and guided the students in understanding the skills required to be an efficient Embedded System Designer. He also discussed the various projects handled by BDL and the application of embedded systems in those projects. Students were able to understand the importance of embedded system in the present market and came to know about the opportunities available and the skills required for a good embedded system designer. They understood that everything around them is an embedded system from a digital watch to automation systems (CNC machines) used in large industries.

C. NARESH KUMAR REDDY

Lecturer, Dept. of Physics

T. NAGA LAKSHMI

Lecturer, Dept. of Electronics

NATIONAL SMALL INDUSTRIES CORPORATION (NSIC)

A field trip was organized by the Department of Physics & Electronics for B.SC (Electronics & Physics) students on 3rd August, 2016 to National Small Industries Corporation, Hyderabad.

Students accompanied by two lecturers from the Department started from the college at 9.15 AM. After reaching NSIC, the students were taken to the class room, where there was a presentation about the various activities and courses conducted by NSIC. After the presentation students were taken around various labs such as electronics lab, computer lab, mechanical lab, solar power plant lab. In each lab, instructors explained the students about how the courses offered by NSIC are conducted practically.

Mr. Jayavarman, Technical Engineer, Electronics explained the students about the expectations of the industry and also the importance of enhancing practical skills to make them suitable for the industry. He gave an insight into the career opportunities available in the field of electronics.

Students were quite enthusiastic to learn some projects before the completion of their course. Students could get an idea of the trends in the electronics industry and the need to orient themselves to fit in the job space.

C. NARESH KUMAR REDDY, Lecturer, Dept. of Physics

T. NAGA LAKSHMI, Lecturer, Dept. of Electronics

E-Waste Management

An awareness program on Electronic Waste Management was organised by the Department of Electronics & Physics on 29th September, 2016 for B.Sc and B.Com students by Mr. Kashyap, Technical Manager, Earth Sense Resense Pvt. Limited, Hyderabad.

Technology is growing at a rapid pace and E-waste is the largest source of lead in solid waste. It is estimated that 70% of heavy metals in landfills come from E-waste. E-waste can contain more than 1,000 components, many of which are toxic, including brominated flame retardants, PVC, gases, heavy metals (lead, mercury, cadmium), and greater than 85% of all E-waste goes unrecycled. It's energy efficient

to rebuild old computers, but only about 2% of PCs ever find their way to a second user. About 50 millions cell phones are replaced worldwide a month, and only 10% are recycled. If just a million cell phones are recycled, it would reduce greenhouse gas emissions equal to taking 1,368 cars off the road for a year.

Mr. Kashyap explained about the definition of E-waste, importance of segregating E-waste from normal waste. He also explained the need for recycling E-waste and showed a presentation of various units available

Mr. Kashyap, Technical Manager, Earth Serve Resense Pvt. Ltd., Hyd.
Receiving a memento from the Principal Rev. Bro Jaico Gervasis

in the country for processing E-waste. He explained how their company collects, segregates, dismantles and recycle the E-waste. He gave an insight to the students about hazards of not properly handling the E-waste. Students understood the precautions taken by the workers during the recycling process of E-waste.

C. NARESH KUMAR REDDY,
Lecturer, Dept. of Physics

A workshop on Proteus

A workshop was organized for B.SC (Electronics) students by the Department of Electronics on 05th December, 2016 by Mr. V.Veerababu, Alumni, Little Flower Degree College, Hyderabad.

Mr. Veerababu started the workshop by introducing the students about microcontroller, difference between microprocessor and microprocessor. He also dealt with simple applications of microcontrollers, how to interface them. He made the students to write the code for LED interfacing. Then he introduced them to proteus software and its environment.

Proteus software combines ease of use with powerful features to design, test and layout professional PCBs. It has nearly 800 microcontroller variants ready for simulation straight from schematic. Complex embedded systems can be designed and its working can be checked virtually using the software.

Students were able to understand the environment and tried to simulate simple projects and got their doubts clarified. They were very satisfied as learning this software would enable them to design complex embedded system projects

Mr. V. Veerababu, Alumni, Little Flower Degree College, conducted a Workshop on Proteus Software.

WORKSHOP

A two day workshop was organized for II B.SC (Electronics) students by the Department of Electronics on 16th and 17th January, 2017, in coordination with PGP Electronics Pvt. Limited, Hyderabad.

The workshop was conducted for the 2nd year students to make them understand about the various components and devices used in electronics, testing them and building projects using PCB (Printed circuit Board). They were also introduced to soldering techniques and their importance in efficient working of the circuit.

Students were divided into groups, each comprising two members and were assigned a project. They were asked to recognise the components, test, assemble and solder them on to the PCB. Finally the outputs were checked. The various projects taken up as a part of the workshop are Multi utility timer, Emergency cum study lamp. Variable power supply, Mobile operated electrical switch, Automatic Night Guard and Battery Monitor with Alarm.

Students were quite elated and said that this workshop boosted their confidence to build real life projects.

T. NAGA LAKSHMI
Lecturer, Dept. of Electronics

APPLICATIONS OF MICROCONTROLLERS IN REAL LIFE

A two day workshop was organized for III B.SC (Electronics & Physics) students by the Department of Electronics & Physics on 23rd and 24th January, 2017, in coordination with PGP Electronics Pvt. Limited, Hyderabad.

The workshop was conducted for the final year students to understand the applications of micro controllers in real life. Students were divided into four groups and they were assigned four projects. The team of PGP Electronics Pvt. Limited initially explained about the pin configuration and working of the micro controller used in the project. Each member of the team from PGP helped the students to initially understand the application which they

need to design. Students then wrote the code, assembled the components, dumped the code into the controller and checked for the output.

Projects which were tested are Heart beat indicator with alarm, Surveillance system using Light sensor, Innovative power saver method for street light system, cell phone based vehicle remote control system.

Students were very satisfied and were enthusiastic to take up some more projects.

C. NARESH KUMAR REDDY
Lecturer, Dept. of Electronics
T. NAGA LAKSHMI

**Field Trip to
Prof. Jayashankar Telangana State Agricultural University,
College of Veterinary Sciences (Wild Life Stock)**

Visit to Prof. Jayashankar Telangana State Agricultural University, College of Veterinary Sciences (Wild Life Stock).

A wild life stock department is a place where various birds and various animals are kept. It was a good opportunity for the students of second and final year BtMC students to visit the wild life stock department.

The professors of the department explained different techniques of animal breeding, molecular pharming methods and also showed the various equipments such as spectroscopy, distillation units, sterilization zone etc.,

The faculty of Animal husbandry showed the different breeds of buffaloes, goats, sheep, rabbits, pigs that are used in the animal biotechnology and also gave detailed description regarding the Azolla cultivation, used as a biofertilizer.

Importance of DNA isolation and PCR in Genetics and Biotechnology

Reliability of genotyping is an issue for studies using non-invasive sources of DNA. The importance of refining DNA extraction methods to maximize reliability and efficiency of genotyping for such DNA sources. Polymerase chain reaction (PCR) is often considered as one of the most important scientific advances in the field of molecular biology. With this revolutionary yet inexpensive biochemical technology, it's possible to generate millions of DNA copies from a single strand of DNA. As a result of this, PCR is considered to be one of the most indispensable techniques used in medical and biochemical research laboratories. Polymerase chain reaction, or molecular photocopying as it is lovingly called by some people, can be used in a variety of applications. DNA copies produced through PCR amplification can be used in a large number of medical and forensic applications.

Dr. A. Sandhya, Assistant Professor, Department of Genetics and Biotechnology delivered an interesting lecture on importance of Genomic DNA isolation, Polymerase Chain Reaction and their wide applications in various fields.

Students of BtMC participating in guest Lecture

Dr. Sandhya receiving a momento from Principal Bro. Jaico

DNA ISOLATION AND PCR AMPLICATION

DNA (Deoxyribonucleic acid) supplies genetic information which determines what kind of creature and what characters would be formed in any living organism. Deoxyribonucleic acid is a self-replicating material present in almost all living organisms as the main component of chromosomes. DNA isolation is one of the most basic and essential techniques in the study of DNA. The extraction of DNA from cells and its purification are of primary importance in the field of biotechnology and forensics. Extraction and purification of DNA are the first steps in the analysis and manipulation of DNA that allow scientists to detect genetic disorders, produce DNA fingerprints of individuals, and even create genetically engineered organisms that can produce beneficial products such as insulin, antibiotics, and hormones.

The isolation of DNA is one of the most commonly used procedures in many areas of bacterial genetics, molecular biology and biochemistry. Purified DNA is required for many applications such as studying DNA structure and chemistry, examining DNA-protein interactions, carrying out DNA hybridizations, sequencing or PCR, performing various genetic studies or gene cloning. In this regard Department of Biotechnology, Little Flower Degree college has conducted a one day national work shop on isolation of genomic DNA on 24th January 2017 .We invited the eminent speaker Dr .Grace Prabhakar, faculty, Department of Biotechnology, St. Joseph's college, Bangalore to enlighten students on the significance of DNA extraction and PCR amplification.

Dr. Grace Prabhakar, receiving a memento from Principal Bro Jaico

Dr. Grace Prabhakar, Faculty, Dept. of Biotechnology, St. Joseph's College, Bangalore delivering Lecture

Participants of workshop

Two Day National Conference on Molecular Insights in Genetics & Biotechnology - Emerging trends and Future Prospects

Students from First Year (BtMC) presented a poster along with Ms. P. Jayanthi Reddy, Vice-Principal on “Clustered regularly interspaced short palindromic repeats (CRISPR) and Genome Editing ” at Two Day National conference “**Molecular Insights in Genetics & Biotechnology – Emerging trends and Future Prospects**” conducted by Department of Genetics & Biotechnology, Osmania University on February 27 -28, 2017. The students participated & clarified various doubts and bagged the best poster award, Rs 1000/- cash prize from the Dr.K.V Rao Scientific Society and organizers of the conference.

Students Receiving Best poster award and Dr.K.V Rao Scientific Society Cash Prize

Students displaying their poster at conference venue

Dept of Chemistry

Spectroscopy

Dr. Sudha Swaraga, Assistant Professor, Department of Chemistry St.Pious women's Degree and PG College, Nacharam, has given a Guest Lecture on the Topic NMR Spectroscopy.

Dr. Sudha Swaraga, initiated the lecture with the brief introduction on all types of Spectroscopy and their significance. She continued with the explanation of the main principle involved in NMR spectroscopy and determination of structure of unknown compounds based on the number of protons present in the compound. Adding on to that she gave a detailed description about Chemical shift, Shielding and Deshielding effects, Multiplicity, Spin-Spin coupling, coupling constant and ended the lecture by giving the various applications of NMR spectroscopy.

Students were satisfied with the valuable information they got during the lecture and by clarifying their doubts. The session was concluded with a vote of thanks.

**Dr. Sudha Swaraga
delivering the Lecture**

Students participating in seminar

Visit to Open House at CCMB

On the occasion of the opening of CCMB, students of Life Sciences along with the faculty visited CCMB with the idea of boosting up the research skills.

It was a wonderful opportunity for the students to see the current issues in the field of biochemical researches & different instruments used for it like spectroscopy (NMR, IR, uv, MASS), HPLC, Gas chromatography and various high resolution microscopic instruments like Electron microscope, live videos of mechanism of cell division, Drosophila fly lab and different posters which influence the current trends on research. Students were also taken to LIQ.N₂ PLANT and also interacted with the research fellows at CCMB.

Students at CCMB

THE VALUE OF READING LITERATURE

A symposium was organized at EFLU (English and Foreign Language University) on 28th June 2016, on "The Value of Reading Literature". The guest speakers, Prof. Sumita Roy, Prof. Prafulla Kar, Prof. Mohan Raj and Dr. Amith Kumar, elaborated on reading good literature. The epics *Ramayana and Mahabharata*, the Arthashastra, etc, were cited as examples of the literary origin. Prof. Sumita Roy stressed on "*The Bhagvad-Geetha*" more as a manual than as a scripture. She also

explained the term "SthithaPragnya" as an example of stress management i.e. the concept of balance. Prof. Sumita Roy also briefed on *Kavya and Katha* and also discussed the three Gunas - *Rajas, Tamas* and *Satthwik*. She also highlighted the folk tradition and the Bhakti Movement that gave rise to the "*Dohas*".

Prof. Kar later elaborated on "What does Literature do in the aspect of comparison". He expressed that it helps to devaluate the self, making one to understand the other. Comparative Literature brings out decontextualization and disagreement with the other. Speaking about Multi-Lingual conditions, he mentioned "Moby Dick" for its multi language that comprehends linguistic diversity.

Prof. Mohan Raj mentioned that the value in literature itself is very intrinsic. He stressed on 'arousing one's sense of curiosity to value literature'. He explained, if one is able to remember the lines of any prose or poetry, there itself it shows the value of literature and a sense of curiosity for it. "One needs the sensibility to feel literature", he exclaimed. He quoted Erick Chock, "Literature is a way to understand life, to appreciate living and therefore to participate in life to the fullest of your potential".

Dr. Amith Kumar lectured on how literature is taught. He insisted to focus on appreciation, as it exhibits a skill of higher order thinking. "Language competence and its use is subsumed, hence material must be authentic. Anything written with no tacit intentions, makes it unfamiliar to one, till it becomes relevant", said Prof. Kumar.

The session concluded with discussions on how students must develop the habit of reading good literature.

The Graphic Novel

Prof. Pramod. K. Nayar teaches at the Department of English, University of Hyderabad. He authored various books like 'Citizenship And Identity In The Age Of Surveillance', 'Posthumanism', 'The Edited Collections Of Women In Colonial India', 'Historical Documents, etc.

Prof. Nayar elucidated that a graphic novel is a narrative which is blend of text and pictures, often in a comic strip form. Prof. Nayar holds expertise in genres like comics & graphic novels, literary criticism and social sciences. He authored the book named 'The Indian Graphic Novel', which is a detailed study of South-Asian literature. This genre involves history, memory and cultural identity and its critique of the nation in the form of dissident histories and satires.

In his discourse he cited various examples of graphic novels viz. 'Bhimayana' (incidents in the life of Bhimrao Ramji Ambedkar) by Srividya Natarajan et.al and illustrator Durgabai Vyam and 'A Gardener in the Waste land'(Jyotiba Phule's Fight for liberty) by Srividya Natarajan and illustrator Aparajita Ninan, and other such novels. The session was absolutely edifying and useful.

PERFORMING TEXTS

The Dept. of English , Osmania University, organized a 'Two- day Innovative Program on Performing Texts' for UG students on 28th and 29th September,2016 at Dept. of English, OU. Various plays, poems and prose' were enacted by students from different colleges. The I and II year BA students of our college participated in this 'Two-Day Innovative Program'. They enacted on Act IV, Scene II from Shakespeare's plays Twelfth Night and 'Mark Antony's Funeral speech' from Julius Ceasar respectively.

Students came up with their theatre skills with the help of their English faculty and support of Rev.Bro. Jaico, the Principal and Madam Jayanthi,

the Vice Principal of the college. There was a healthy competition among the colleges that participated. But the students of II year BA bagged a special prize for their performance. Participation certificates were given to the students and their respective teachers..

It was indeed a new experience for the students as well as the teachers to understand the stage dynamics and exhibit their creativity skillfully. A video on "theatrics" was played for the students during the

Enhancing Communication Skills To Become effective Class-Room Teachers

Dr. K. Durga Bhavani heads the Department of English at PG College, Secunderabad. She is specialized in English Language Teaching and Learning. She is a Cambridge certified British Council Examiner for IELTS.

Dr. K. Durga Bhavani highlighted the essential elements for being an effective class room teacher with respect to English communication. In order to train students in different skills, a teacher must practice and gain expertise in all aspects. She elucidated on written and spoken communication. Writing helps to observe, remember, think, plan the work, organize and avoid stress. In order to improve efficiency in writing one must make a use of diary and record interesting thoughts and be updated. While giving these inputs ,she stressed on practicing - write, revise, edit and redraft.

Spoken communication requires good preparation and presentation. The choice words used for the target audience must be mindful. To be appropriate, chronological sequence, prioritizing the most important to the less important, etc are the ways of organizing information under this communication. Dr. Bhavani also concentrated the non- verbal communication, i.e. body language and facial expressions; Voice and eye-contact. This kind of communication also has a greater impact on the listeners(students). The discourse was developmental, where the teacher fraternity could implement all the inputs shared by the guest speaker.

French Workshop at Osmania University

Mrs. Neelam Luhadia attended two days French Workshop, organized by Langers International E&B, Delhi & Department of French, University College of Arts and Social Science, Hyderabad for the Lecturers of Osmania University affiliated Colleges, the University college of Arts and Social Sciences, Hyderabad, Telangana. It was held on 11th & 12th of June'2016 at Department of French, University College of Arts and Social Science, Hyderabad. The guest speaker was Prof. S. Soma Sundaram of Alliance Française, Delhi.

As from this year Semester system has been introduced in Degree Colleges, New books with revised syllabus and new method of teaching have been introduced. More and more listening skills are incorporated. The idea is learning by listening.

The speaker told us how to teach lessons incorporating innovative methods and later asked us to prepare and teach the same. Langers International, the Publisher of the new book "A propos" distributed the books to all the attendees.

The workshop helped us in learning practically how to teach with the help of media. The convener of the work shop was Prof. Ravi Eshwar Chand, HOD- French Department, Osmania University. I am very thankful for the opportunity given to me and I wish such work shops should be organized frequently.

Neelam Luhadia
French Lecturer, Lfdc.

FDP at St. Ann's College, Mehedipatnam

Mrs. Neelam Luhadia, attended the 2 days Faculty Development Programme on the topic "Renouvellement des pratiques pe'dagogiques" (renewal of teaching practices), organized by St. Ann's College for women, Hyderabad with the cooperation of l'institut de Français Chennai, India. The Ambassador of France in India was also a part of the programme. It was held on 7th and 8th of January, 2017.

This Programme was aimed at understanding the new approaches in foreign language teaching with emphasis on acquisition of skills, testing and evaluating of skills. The resource person was Mr. Emmanuel Samson from the Institute of France, Chennai. He educated us with the innovative technical methods so as to develop the understanding of the students to a greater extent.

On the 2nd day, he explained the points to be considered while evaluating the test papers. The evaluation should be multi-level keeping in consideration the continuous performance of the students.

The session came to an end by clarifying the doubts of the participants. All the teachers participated with great deal of enthusiasm. The session was very informative and fun filled.

Neelam Luhadia
French Lecturer, LFDC

Why to Learn French? – A Foreign Language

In order to nurture the enthusiasm and interest for the French Language, the Dept. of French, organized a seminar on the topic “**Why to learn French- A Foreign Language**” on 3rd November, 2016 by Ms. Chrasri Bandhyopadhyaya, Asst. Professor, French, Osmania University.

Initially she started off with questioning the students, why they are learning French? The students came up with a variety of reasons. Excited by their answers, she told them about lots of opportunities which they can get after leaning French. Ms. Chrasri spoke amidst students, guiding them towards careers in French Language and also the path to pursue them later. The students were enlightened about DELF & DALF examinations. The session was very interactive that students were

able to exchange their ideas and questions with the guest speaker.

The day ended with us gaining a helpful amount of knowledge about French and careers in it. It was indeed an enriching session. We the students extend our heartfelt gratitude.

Varsha Dheeravath,
1st year, BA.

Ms. Chrasri Bandhyopadhyaya, Asst. Professor, French, Osmania University, conducted a seminar on “Why to learn French - A Foreign Language”

French Club Fair and Exhibition

On 25th of January, Naissance held an exhibition on wide variety of themes ranging from French revolution to Culture, landscape and famous personalities of France. Students also explained the role of French language as a lingua franca and captivating games on basics of the language were organized for the curious young minds of both Non-French and French departments. Not only given the privilege of being the first ever French Club at L.F.D.C., we also had the privilege of arranging a French musical and skit performances at the end of the event

The day ended with students of all departments bagging knowledge on French architecture, culture and history. And we French department show our gratitude to our Principal Brother Jaico and vice- principal Madam Jayanthi Reddy for such a jubilant opportunity.

Varsha Dheeravath, B.A Ist year

Dept of Hindi

लिटिल फ्लावर डिग्री कॉलेज, उप्पल, हैदराबाद में 'हिंदी भाषा की उत्पत्ति और विकास' विषय पर अतिथि व्याख्यान का आयोजन

दि. 01 सितंबर 2016 को लिटिल फ्लावर डिग्री कॉलेज, उप्पल में 'हिंदी भाषा की उत्पत्ति और विकास' पर अतिथि व्याख्यान संपन्न हुआ। इस अवसर पर डिग्री कॉलेज के विद्यार्थियों को संबोधित करते हुए अतिथि वक्ता डॉ सुपर्णा मुखर्जी ने हिंदी शब्द व भाषा की उत्पत्ति और उसके विकास पर सविस्तार प्रकाश डाला। उन्होंने विद्यार्थियों को बताया कि सन 1812 के सौरान समस्त उत्तर-पश्चिम भारत की भाषा के रूप में हिंदी भाषा प्रतिष्ठित हो चुकी थी और उसकी लिपि के रूप में देवनागरी का विकास भी इसी समय हुआ।

उन्होंने कहा कि हिंदी की लोकप्रियता को ध्यान में अखर ही देश की आजादी के बाद भारत की प्रशासनिक भाषा के रूप में हिंदी को चुना गया। इसे लागू करने के लिए अधिनियम-नियम बनाए गए। राष्ट्रपति महोदय द्वारा निर्देश दिए गए कि अंतर्राष्ट्रीय संगठनों के साथ हिंदी में व्यवहार किया जाए। अतः हिंदी भाषा की पढ़ाई करना मूर्खता नहीं सम्मान का सूचक है।

उन्होंने बताया कि कंप्यूटर और स्मार्ट फोन पर हिंदी आ गई है। डॉ जयंती प्रसाद नौटियाल द्वारा किए गए शोध के निष्कर्ष के रूप में यह बात सामने आई है कि हिंदी विश्व में सबसे अधिक बोली-समझी जाने वाली भाषा है। इस भाषा के माध्यम से अब इंजीनियरिंग की पढ़ाई भी शुरू हो चुकी है। भोपाल मध्य प्रदेश में स्थिति अटल बिहारी वाजपेयी हिंदी विश्वविद्यालय ने यह कार्य आरंभ किया है।

इस अवसर पर कॉलेज की उप प्रधानाचार्य श्रीमती जयंती रेड्डी ने कार्यक्रम के सफल आयोजन के लिए हिंदी विभाग को बधाई दी। श्रीमती बी शीला, हिंदी प्राध्यापक के धन्यवाद ज्ञापन से कार्यक्रम का समापन हुआ।

"प्रान्तीय इण्डो-इंग्लिश को दूर करने में जितनी सहायता इस हिन्दी प्रचार से मिलेगी, उतनी दूसरी किसी चीज से नहीं मिल सकती। अपनी प्रान्तीय भाषाओं की भरपूर उन्नति कीजिए, उसमें कोई बाधा नहीं डालना चाहता और न हम किसी की बाधा को सहन ही कर सकते हैं। पर सारे प्रान्तों की सार्वजनिक भाषा का पद हिन्दी या हिन्दुस्तानी को ही मिला है।"

- सुभाषचन्द्र बोस

लिटिल फ्लावर डिग्री कॉलेज में मनाई गई प्रेमचंद जयंती

दि. 03 अगस्त 2016 को लिटिल फ्लावर डिग्री कॉलेज, उप्पल, हैदराबाद में उपन्यास सम्राट मुंशी प्रेमचंद की 136 वीं जयंती मनाई गई। कार्यक्रम का उद्घाटन दीप प्रज्वलन और प्रार्थना गीत से किया गया। कॉलेज की उप प्रधानाचार्य श्रीमती जयंती रेड्डी ने कथाकार प्रेमचंद की फोटो का माल्यार्पण कर उनकी साहित्य साधना को याद किया। कॉलेज के प्रधानाचार्य श्री जैको ब्रदर ने प्रेमचंद जयंती के आयोजन के लिए हिंदी विभाग और विद्यार्थियों को बधाई दी और कहा कि इस तरह के आयोजनों से नई पीढ़ी को भारतीय साहित्य और उसके रचनाकारों की महानता को जानने का अवसर मिलता है।

इस अवसर पर विशेष अतिथि के रूप में उपस्थित भवन्स विवेकानंद कॉलेज, सैनिकपुरी सिकंदराबाद की वरिष्ठ हिंदी प्राध्यापक डॉ संध्या दास ने प्रेमचंद की लेखन कला की विशेषता रेखांकित करते हुए कहा कि प्रेमचंद ने अपने कथा साहित्य में भारतीय किसान और मजदूर के जीवन का यथार्थ चित्रण किया है। उनकी भाषा आम जन की भाषा थी। प्रेमचंद हिंदी कथा साहित्य के विशिष्ट हस्ताक्षर हैं। उनके साहित्य ने भविष्य के कथा साहित्य का मार्ग प्रशस्त किया। उनकी कहानियों में स्त्री विमर्श, दलित विमर्श, वृद्धावस्था विमर्श के पदचिह्न प्राप्त होते हैं। उनकी भाषा मुहावरेदार होने की वजह से सहज संप्रेषणीय है। दक्षिण भारत विशेषकर हैदराबाद में अपने अनुभव के आधार पर उन्होंने बताया कि प्रेमचंद की कहानियाँ और उपन्यासों से आकर्षित हो कर हिंदीतर भाषियों ने हिंदी सीखी। इस दृष्टि से प्रेमचंद हिंदी के एक कुशल प्रचारक थे।

इस अवसर पर हिंदी विभागाध्यक्ष श्रीमती बी शीला ने प्रेमचंद की रचना धर्मिता पर विचार व्यक्त करते हुए कहा कि प्रेमचंद ने सामाजिक, राजनैतिक, आर्थिक और सांस्कृतिक पहलुओं पर बहुत विपुल साहित्य की रचना की है। हिंदी भाषा को लोकप्रिय भाषा बनाने में इनका योगदान अविस्मरणीय है। गांधीजी ने जिस 'हिन्दुस्तानी' भाषा की बात की थी वह भाषा हमें प्रेमचंद के साहित्य में मिलती है। भाषा और समाज के प्रति वे प्रतिबद्ध रचनाकार हैं। इसीलिए वे आज भी प्रासंगिक हैं।

इस अवसर पर विद्यार्थियों ने प्रेमचंद के कृतित्व और व्यक्तित्व पर अपने विचार व्यक्त किए। द्वितीय वर्ष के विद्यार्थी नीलेश जैन और कृष्णा सिंह ने पीपीटी के माध्यम से प्रेमचंद का संक्षेप परिचय प्रस्तुत किया जबकि बर्निडेट बर्नी ने 'कफन', तेजशराव ने 'ईदगाह', प्रकाश ने 'देवी', पल्लवी ने 'बड़े भाई साहब' और प्रथम वर्ष की छात्रा फरहत ने 'बड़े घर की बेटी' पर अपने विचार व्यक्त किए। आलेख प्रस्तुतीकरण के पश्चात प्रथम वर्ष के छात्र-छात्राओं ने चर्चा - परिचर्चा में भाग लिया।

इस कार्यक्रम में डिग्री कॉलेज के प्रथम तथा द्वितीय वर्ष के सभी विद्यार्थियों ने सक्रिय भाग लिया। कार्यक्रम का संचालन प्रथम वर्ष की छात्रा हबीब खातून ने किया और संजना ने प्रार्थना गीत प्रस्तुत किया।

प्रेमचंद जयंती के अवसर उपस्थित छात्र समूह। कार्यक्रम के मुख्य वक्ता डॉ. संध्या दास, प्राध्यापक, भवन्स कोलेज और छात्रों के विचार मंत्रमुग्ध होकर सुनते हुए।

“ साहित्य की बहुत-सी परिभाषाएँ की गई हैं, पर मेरे विचार से उसकी सर्वोत्तम परिभाषा 'जीवन की आलोचना' है। चाहे वह निबंध के रूप में हों, चाहे कहानियों के या काव्य के, उसे हमारे जीवन की आलोचना और व्याख्या करनी चाहिए। ”
- प्रेमचंद

लिटिल फ्लावर डिग्री कॉलेज, उप्पल, हैदराबाद में हिंदी दिवस के उपलक्ष्य में विभिन्न प्रतियोगिताओं का आयोजन

दि. 08-09 सितंबर 2016 को हिंदी दिवस के उपलक्ष्य में लिटिल फ्लावर डिग्री कॉलेज, उप्पल, हैदराबाद के हिंदी विभाग द्वारा विद्यार्थियों के लिए हिंदी भाषा में विभिन्न प्रतियोगिताएं आयोजित की गईं। जैसे - निबंध लेखन, अशुभाषण, शब्द निर्माण और कविता वाचन। इन प्रतियोगिताओं में भाग लेकर छात्रों ने हिंदी भाषा के प्रचार-प्रसार में योगदान दिया।

विभिन्न प्रकार के हिंदी प्रतियोगिताओं में भाग लेते हुए विद्यार्थी प्रतियोगिता के अवसर पर लिटिल फ्लावर डिग्री कॉलेज की हिंदी विभागाध्यक्ष श्रीमती बी शीला

इस अवसर पर कॉलेज की हिंदी प्राध्यापक बी शीला ने कहा कि हिंदी भारत की राजभाषा है। 14 सितंबर 1949 को संविधान निर्मात्री सभा ने एकमत होकर हिंदी

को भारत संघ की राजभाषा के रूप में स्वीकार किया। उसी दिन की याद में पूरे भारत वर्ष में हर साल 14 सितंबर के दिन 'हिंदी दिवस' मनाया जाता है।

इस अवसर पर देश के प्रशासनिक काम-काज में हिंदी को बढ़ावा देने के लिए अनेक

कार्यक्रम आयोजित किए जाते हैं। इसी उपलक्ष्य में इस वर्ष कॉलेज में 08-09 सितंबर को निबंध लेखन, अशुभाषण, शब्द निर्माण और कविता वाचन प्रतियोगिताएं आयोजित की जा रही हैं। इस अवसर पर कॉलेज के प्रधानाचार्य श्री जैको ब्रदर और उपप्रधानाचार्य श्रीमती जयंती रेड्डी ने सभी छात्रों को शुभकामनाएँ दी और कहा कि इस प्रतियोगिताओं में अधिक मात्र में भाग लेकर कार्यक्रम को सफल बनाएँ।

अशुभाषण तथा कविता वाचन प्रतियोगिताओं में भाग लेते हुए विद्यार्थी। साथ में है प्रतियोगिताओं की निर्णायक श्रीमती सध्या आर्यो।

पहली और सबसे बड़ी समाज सेवा जो हम कर सकते हैं वह यह है कि हम देशी भाषाओं को अपनाएं, हिंदी को राष्ट्रभाषा के रूप में उसके स्वाभाविक पद पर प्रतिष्ठित करें और सभी प्रांत अपना-अपना समस्त कार्य अपनी देशी भाषाओं में तथा राष्ट्र का कार्य हिंदी में प्रारंभ कर दें।

- महात्मा गांधी

उस्मानीय विश्वविद्यालय, हैदराबाद में 'भारतीय भाषाएँ व प्रवासी साहित्य'

विषय पर दो दिवसीय अंतर्राष्ट्रीय संगोष्ठी का आयोजन

दि. 16-17 सितंबर 2016 को उस्मानीय विश्वविद्यालय, हैदराबाद, अंतर्राष्ट्रीय साहित्य कला मंच, मुरादाबाद तथा सेंट एन्स कॉलेज फॉर वुमेन, मेहदीपटनम, हैदराबाद के संयुक्त तत्वावधान में 'भारतीय भाषाएँ व प्रवासी साहित्य' विषय पर दो दिवसीय अंतरराष्ट्रीय संगोष्ठी के रूप में संपन्न हुई। इस अवसर पर देश-विदेश से विद्वान, शोधार्थी और विद्यार्थी उपस्थित हुए और विभिन्न विषयों पर आलेख प्रस्तुत किए। यह उस्मानीय विश्वविद्यालय का शतवर्षीय समारोह था।

इस अवसर पर दि.16 सितंबर 2016

को लिटिल फ्लावर डिग्री कॉलेज, उप्पल,

'राष्ट्रीयता की भाषा है' विषय पर विचार व्यक्त करती हुई लिटिल फ्लावर डिग्री कॉलेज की हिंदी प्राध्यपक श्रीमती बी शीला।

सत्र के अध्यक्ष प्रो. एम वेंकटेश्वर और साथी वक्ताओं के साथ में लिटिल फ्लावर डिग्री कॉलेज की हिंदी प्राध्यपक श्रीमती बी शीला।

हैदराबाद की हिंदी प्राध्यापक श्रीमती बी शीला ने 'राष्ट्रीयता की भाषा है हिंदी' विषय पर आलेख प्रस्तुत किया। प्रो. एम. वेंकटेश्वर की अध्यक्षता में संपन्न संगोष्ठी के तीसरे सत्र में मुख्य वक्ता के रूप में 'राष्ट्रीयता की भाषा है हिंदी' विषय पर अपने विचार व्यक्त करते हुए बी शीला ने हा कि हिंदी भारत को एक राष्ट्र के रूप में एकीकृत करने वाली भाषा है। संविधान की आठवीं अनुसूची में शामिल सभी

भाषाओं की मध्य मणि है हिंदी। यह राष्ट्रीयता की भाषा है।

लिटिल फ्लावर डिग्री कॉलेज में हिंदी दिवस का आयोजन

दि. 20 अक्टूबर 2016 को लिटिल फ्लावर डिग्री कॉलेज, उप्पल, हैदराबाद के हिंदी विभाग द्वारा हिंदी दिवस के उपक्ष्य 'हिंदी दिवस एवं पुरस्कार वितरण' कार्यक्रम का आयोजन किया गया। इस अवसर पर कॉलेज में दि. 08-09 सितंबर 2016 को आयोजित निबंध लेखन, अशुभाषण, शब्द निर्माण और कविता वाचन प्रतियोगिताओं में विजयी रहे विद्यार्थियों को पुरस्कारों से सम्मानित किया गया।

इस अवसर पर उपस्थित के रूप में उपस्थित बीजेआर डिग्री कॉलेज के उपप्राचार्य डॉ

कि हिंदी के प्रचार-प्रसार के लिए कॉलेजों में इस तरह के कार्यक्रम आयोजित करना सराहनीय कार्य है। हिंदी भारत ही नहीं बल्कि विश्व में सबसे अधिक बोली-समझी जाने वाली भाषा है। हिंदी ने अपनी यह पहचान अपने बल हासिल की है। लेकिन अपने ही देश में इसे प्रचार-प्रसार की आवश्यकता पड़ रही है। राजनैतिक इच्छा शक्ति की कमी के कारण ही ऐसा हुआ है। वरना क्या बात है कि जो भाषा

आसानी से सिखाई जा सकती है, जिस भाषा में पूरा भारत वर्ष संवाद स्थापित करता

चित्र-1: कोलेज प्रिंसिपल डॉ बीजे आर डिग्री कॉलेज में हिंदी दिवस का आयोजन करते हुए;
चित्र-2: हिंदी विभाग के अध्यक्ष डॉ. आर.के. शर्मा द्वारा प्रतियोगिता में विजयी रही छात्रों को पुरस्कार से सम्मानित करते हुए डॉ. प्रमोद कुमार, चित्र-3: विद्यार्थियों के साथ डॉ. शर्मा, डॉ. प्रमोद कुमार।

है, सबसे अधिक बोली जाने वाली भाषा होने का गौरव इसे प्राप्त है और शब्द संपदा की कमी भी नहीं है, फिर भी इसका प्रशासनिक व्यवहार उतना नहीं है जितना होना चाहिए। आइए, इस अवसर पर हम प्रण करें कि हिंदी को इसका हक्क दिलाएँगे। कर्म-वचन से बंधकर यह हासिल करेंगे।

हिंदी मेला आयोजन

दि. 25 जनवरी 2017 को लिटिल फ्लावर डिग्री कॉलेज, उप्पल, हैदराबाद के हिंदी विभाग द्वारा हिंदी के प्रचार-प्रसार के लिए बने हिंदी क्लब के सहयोग से हिंदी मेले का आयोजन किया। इस मेले में छात्रों ने विभिन्न विषयों पर हिंदी भाषा में चार्ट की प्रदर्शनी लगाई। जैसे - वर्णमाला, हिन्दी साहित्य का विकास, पर्यावरण और हम। इस अवसर पर स्वामी विवेकानंद की जीवन छात्रों द्वारा बनाई गई पीपीटी

प्रस्तुत की गई। हिंदी भाषा में मनोरंजक खेल भी रखे गए। जैसे - शब्द निर्माण, मुहावरों व लोकोक्तियों के अर्थ, हिंदी अंक उलटेक्रम में बोलना, टंग ट्विस्टर। इस अवसर पर छात्रा वैष्णवी ने मीराबाई तथा छात्र तेजश ने कबीर की वेशभूषा धारण की। साथ ही, हिंदी क्लब के छात्रों (एलन रेनॉल्ड, निलेश, तेजश, पल्लवी) द्वारा भीष्म साहनी द्वारा रचित 'चीफ की दावत' कहानी को नुकड़ नाटक के रूप में प्रस्तुत किया।

प्रदर्शनी की जायजा लेती हुई हिंदी प्राध्यापिका बी शीला

नैपुण्य स्पर्धा – 2016-17 की रिपोर्ट

Naipunya Spardha-2016-17 Report

भाषा विभाग द्वारा दिनांक 04 फरवरी 2017 (शनिवार) को 'नैपुण्य स्पर्धा-2016-17', अंतर महाविद्यालयी साहित्यिक प्रतियोगिता का आयोजन किया गया।

The department of languages have organized NAIPUNYA SPARDHA-2016-17, an inter collegiate literary competition on Saturday, 04 February, 2017.

विद्यार्थियों को अपनी प्रतिभा प्रदर्शन हेतु प्रोत्साहित करने के लिए संस्कृत, हिंदी, तेलुगु, अंग्रेजी और फ्रेंच भाषाओं में विभिन्न प्रतियोगिताओं का आयोजन किया गया।

To encourage the students' skills, various events were organized in Sanskrit, Hindi, Telugu, English and French.

विशेषकर हिंदी में 6 प्रतियोगिताएँ आयोजित की गईं। जैसे – आशुभाषण, शब्द निर्माण, वाद-विवाद, श्रुतलेखन, चित्र वर्णन और अनुवाद।

In Hindi particularly, there were 6 events, namely, JAM, Word Building, Debate, Listen Pen, Picture Speak and Translation.

इन प्रतियोगिताओं में लिटिल फ्लावर डिग्री कॉलेज, उप्पल, बद्रुका, भवन्स, सेंट पाइस, प्रगति महाविद्यालय, अरोरा, वेसली, पिन्स्टन, ओमेगा, अवन्ति, श्री साई, सेंट ऐन्स, डेविड मेमोरियल, वसुंधरा और रेल्वे डिग्री कॉलेज के विद्यार्थियों ने बड़े उत्साह के साथ भाग लिया।

आशुभाषण प्रतियोगिता में अपने विचार प्रकट करता विद्यार्थी

वाद-विवाद प्रतियोगिता में अपने विचार प्रस्तुत करते हुए विद्यार्थी

चित्र वर्णन प्रतियोगिता में अपने विचार प्रस्तुत करते हुए विद्यार्थी

श्रुतलेखन प्रतियोगिता में भाग लेते हुए विद्यार्थी

प्रतियोगिताओं के प्रतिभागियों के प्रदर्शन का मूल्यांकन करने के लिए डॉ सुषमा देवी, प्राध्यापक, हिन्दी विभाग, विवेक वर्धिनी कॉलेज, कोटी और डॉ बी बालाजी, सहायक प्रबंधक (राजभाषा), मिश्रा धातु निगम लिमिटेड ने निर्णायकों की भूमिका निभाई। To evaluate the performance of the students, the judges were Dr. Sushma Devi, Lecturer Department of Hindi, V.V.College, Koti and Dr. B.Balaji, Asst. Manager (OL), Mishra Dhatu Nigam Limited.

अनुवाद प्रतियोगिता में अनुवाद करते हुए विद्यार्थी

प्रधानाचार्य श्री रेव.ब्रो. जैको गेर्वसिस प्रतियोगिताओं में विजेताओं को पुरस्कार से सम्मानित करते हुए

निर्णायक डॉ सुषमा देवी, डॉ बी बालाजी को सम्मानित करते हुए प्रधानाचार्य श्री रेव.ब्रो. जैको गेर्वसिस

नैपुण्य स्पर्धा के संयोजक दल एवं निर्णायकों के साथ लिटिल फ्लॉवर डिग्री कॉलेज के प्रधानाचार्य श्री जैको ब्रदर तथा उप प्राचार्य श्रीमती जयंती रेड्डी

कार्यक्रम के अंत में प्रधानाचार्य श्री रेव.ब्रो. जैको गेर्वसिस कार्यक्रम के सफल आयोजना के लिए कॉलेज के सभी प्राध्यापकों एवं विद्यार्थियों को बधाई देते हुए निर्णायकों को स्मृति चिह्न प्रदान कर आभार व्यक्त किया। उन्होंने विजेताओं को पुरस्कार तथा प्रमाण पत्र से सम्मानित किया और शुभकामनाएँ दीं। कार्यक्रम को सफल बनाने में कॉलेज के सभी स्टाफ का सक्रिय योगदान रहा।

At the end of the day, a valedictory programme was organized in which all the judges were felicitated and the mementoes and certificates were distributed to the winners by the principal Rev. Bro. Jaico Gervasis, who congratulated all of them and encouraged everyone to keep the spirit going.

-:धन्यवाद-समाप्त:-

Recent Advances in Fluid Mechanics

The Department of Mathematics, Osmania University, Hyd organized a 2-day National Conference on Recent Advances in Fluid Mechanics from May 30th to 31st 2016. The aim of the conference was mainly to acquire knowledge and ideas regarding latest techniques in applied mathematics.

Fluid dynamics is a branch of fluid mechanics and algorithm to solve and analyze problems involving fluid flows as well as the interaction of solids and other multi physics studies. One of the most challenging tasks in advanced fluid dynamics is the generation of structured or unstructured body fitted grids around complex geometries. The grid is used to discretize the governing equations in space and for this most efficient tools such as MATHEMATICA, MATLAB, COMSOL etc are widely used for solving the problems and better designs.

The conference mainly highlighted on

1. Homotopy Analysis
2. Spectral methods
3. Perturbation technique
4. Nonlinear ordinary differential equation
5. Heat transfer analysis through fins
6. Successive linearization techniques

Certain Types Of Numbers and their Applications

Mr G. Upender Reddy, Assistant Professor of Nizam Degree & P G College gave a lecture on different types of numbers for BSc I years. He gave definitions of different types of numbers we have.

He explained different types of the numbers formed by unique patterns that are often used in the solution of Mathematical problems. When distinct patterns are applicable, the first ten numbers of the patterns will be given along with specific relationships, or equations, that will enable us to find any number in the pattern.

He explained about Golden ratio, Fibonacci numbers, Hardy – Ramanujan, Quasi Perfect , relatively prime , Transcendental numbers etc.

Mr Upender Reddy delivering lecture on Numbers & Applications

Fermat's Theorem

Students listening to the tecture

Principal Rev Bro Jaico presenting a memento to Mr Sethu Madhava Rao

Mr. Sethu Madhava Rao a retired Associate Professor of Kakatiya Govt College, Hanumakonda gave a lecture on **"Fermat's Last Theorem"** for B Sc II & III years. He gave a brief description about Pythagorous theorem, Pythagorous triplets & Fermat's theorem. Fermat wrote an equation $X^n + Y^n = Z^n$ and had no solution for $n > 2$. Fermat's last theorem stood unsolved in mathematics for the three and half centuries. It is one of the most unsolved problems of mathematics.

After the death of Fermat it was discovered that he proved the condition for $n = 4$ & X, Y, Z are 3,5,7. Later Sophie German proved for primes less than 100. Ernst Kummer extended and proved for regular primes. Atlast Andrew Wiles at the age of 10 encountered Fermat's Last theorem and received numerous prizes and also Abel's prize for 2016. It was listed in the Guinness Book Of Records as the most difficult mathematical problem.

Role of Mathematical Sciences in Digitalization

"Role of Mathematical Sciences in digitalization" – A two day workshop based on the role of Mathematics in digitalization was held on 7th & 8th September 2016 by the Department of Sciences at St Joseph's Degree & PG college. The main purpose of this workshop was to make students aware of the use of Math in digitalization. The event was inaugurated by Prof P L Vishweshwar Rao, Principal of Arts & Social Sciences. On 7th September 2016 Prof V Kannan gave lecture on "Use of Topological Dynamics in three problems of Digitalization". Dr K Veerabhadra Rao gave lecture on "The importance of Statistics for Digital Communication". Prof V.S.S. Sastry, School of Physics, UOH lectured on "Computational Physics & application of Mathematical Techniques"

On 8th September 2016 Dr V. V. Hara Gopal, OU, Hyd gave a lecture on "Dta Sciences its relevance & Importance" Prof Durga Prasad Rao, NRSA, Hyd gave lecture on "Satellite Remote Sensing Application"

Prof B. Deekshitulu, IDRBT, Hyd gave lecture on 'Sentimental Analysis'

The workshop was very informative and I learned how Maths is useful in our daily life.

G. Raman Sai, III BSc (MSCs)

Intercollegiate Competition

Prize winners of Abacus competition

Ten Students from B Sc – II year & B Com – II year participated in ABACUS competition held at Badruka College. Out of 250 groups our college students bagged the first prize.

Exam of Madhava Mathematics

(A Mathematics Competition for Undergraduate Students)

The competition is named after Madhava, who introduced in the fourteenth century, profound mathematical ideas that are now part of Calculus. His most famous achievements include the Madhava - Leibnitz series for π , the Madhava - Newton power series for sine and Cosine functions and a numerical value of π that is accurate to eleven decimal places. The "Madhava School", consisting of a long chain of teachers-students continuity, flourished for well over two centuries, making significant contributions to mathematics and astronomy.

The students of BSc I year, II year (MPCs, MECs, MSCs) attempted the Madhava Mathematics Exam organized by TATA INSTITUTE OF FUNDAMENTAL RESEARCH for giving scholarships and encouraging the students to pursue Research in the field of Mathematics.

Students attempting Madhava Mathematics exam

Applications of Mathematics to Cryptography

Mr Jaico Mannaparambil, Mr M. Prashanth & Mrs T. Swapna presented a paper on "Cryptography by using RSA method" at one day National Workshop organized by the Dept. of Mathematics, Statistics & Computer Science engineering of Loyola Academy Degree & PG College.

Mr Prashanth presenting a paper on Cryptography at Loyola Academy Degree and PG College

Diet and Nutrition in Human Health

The Department of Microbiology organized a seminar for B.Sc. (BtMC) students (I-III year) on 30 July 2016. Dr. Srinivas Rao, Scientist from National Institute of Nutrition, delivered a talk on “Diet and Nutrition in Human Health”. The talk highlighted the importance of diet in daily life. The importance of dietary composition including macro molecules such as carbohydrates, proteins and lipids was emphasized in the talk. Moreover, the biological significance of vitamins and minerals was underlined. Furthermore, the impact of unhealthy dietary habits in the age group 19-39 leading to cardiovascular diseases was presented. In this context, the role of healthy diet for maintaining sound health was described. The session was interactive and encouraged the students to discuss the advancements in nutrition and dietetics. In summary, the talk gave overview of diet and its association with healthy life style. The guest lecture concluded with vote of thanks.

Dr. Srinivas Rao, Scientist NIN delivered a talk on “Diet & Nutrition in Human Health”

Faculty Development Program (FDP) on Bioinformatics

Faculty Development programme in Bioinformatics was organized by the Department of Botany and Biotechnology at St. Pious X Degree & PG College for Women, Nacharam, Hyderabad between 16th and 17th Aug 2016. Ms. J. Usha Rani, lecturer in Microbiology attended theory and practical oriented sessions in the FDP. Dr. Aravind from Osmania University delivered a talk on “Introduction to bioinformatics”. The talk gave perspectives of Biological databases, Gene Bank and sequence alignment methods. On

Day-2, Protein visualization, Homology Modeling, Drug designing, Molecular docking and phylogenic analysis were taught. During valedictory, Dr. Padmalatha, Head, Department of Biotechnology distributed the certificates to the participants.

Field trip to Ruska Labs at Prof. Jayshankar Telangana State Agricultural University (PJTSAU)

The Department of Microbiology organized a field trip for the 1st, 2nd and 3rd B.Sc. (BtMC) students to Ruska Lab on 29 Sep 2016. Prof. M. Lakshman, Officer-in-Charge of the lab guided the students during the visit. "RUSKA LABORATORIES" were named in recognition of the contribution made by Dr. Earnest Ruska, the Nobel Prize winner in Physics (1931) for invention of Electron Microscope. Prof. M. Lakshman explained the principles and applications of different types of electron microscopes to the students and staff. The art of the infrastructure facilities at the center gave an opportunity to access the following:

.Transmission Electron Microscope (TEM) - (Hitachi H-7500) -magnification range from 700 x to 3, 00,000 x with 2 nm resolution.

Ultra-Microtome - (Leica Ultra cut –GA –D/E –1/00)

Scanning Electron Microscope (SEM) - (JEOL JSM - 5600) magnification range 30 x to 1, 00,000 x with 3.5 nm resolution.

Advanced Research Microscope - (Olympus Ax – 70-proposed for digitalization under RKVY) with facilities for Fluorescence, Differential interference contrast, Darkfield and Phase contrast Student Research Microscope - (Carl zeiss Axisokop 2 plus - proposed for digitalization) Stereo Zoom Microscope - (Nikon SMZ 800).

Dark Room Facility Furthermore, students also got an opportunity to learn about:

Application of electron microscopic techniques and other research tools for diagnosis of animal and plant diseases.

Basic and applied research activities in State, National Academic Institutions and Research Stations.

Research Advancements in Bio Technology (Under TEQUIP II 2016)

Ms. J. Usha Rani, Lecturer in Microbiology gave an oral presentation of her research work titled "**Homology modeling of tyrosinase and docking studies with small peptides**" in the Two day national seminar conducted by **Sreenidhi Institute of Science and Technology, Hyderabad** between 20th and 21st October 2016.

National Seminar on Advances in Bio Process Engineering (NSBPE 2016)

Two day national seminar was conducted on **Advances in Bio Process Engineering** by Kasturba Gandhi Degree College, Sec-bad on 24th 25th Nov -2016. **Ms. J. Usha Rani, Lecturer in Microbiology** and BtMC II & III year students attended and presented papers in the conference. Oral presentation titled “**Small peptides for skin Depigmentation: Protein Engineering and Optimization of Flask fermentation**” was given by Ms. J. Usha Rani Department of Microbiology and the students gave poster presentations on respective topics are provided below:

Ravali, Victoria, Swathi- Recent Trends: Bioreactors for producing Engineered Proteins using Mammalian cell systems

Prathyusha, Bhavana, Jeevan- Cell Factories for Producing Peptides: Current Understanding and Further Challenge

Vignesh, Koushlya, Shivani- Biofuel production and Applications

Lisa, Mounika, Vaishnavi, Manisha- Bio-processing in food industry.

Visit to Sri Medicare Diagnostics

Students of III year BtMC along with faculty Ms. J. Usha Rani, Department of Microbiology visited Sri Medicare Diagnostics on 27th Jan 2017 at Dilsukhnagar, Hyderabad. Students visited various wings of the lab such as sample collection unit, pathology lab, Biochemistry lab, Microbiology lab, X-ray Unit, Imaging and Scanning Departments. Students were also taught about various instruments including Flow Cytometer, ELISA reader, and Semi auto analyzer. Demonstrations of microbiological and immunological test were organized during the visit. In summary, the visit could assist in nurturing the students in diagnostics and their application to screen and identifying diseases.

National Science Day at LFDC

National science day is celebrated every year on 28 February. As a part of National science day students were oriented to demonstrate various science projects in recent advancements of science. The theme of the National science day celebration was “Science and Technology for Specially Abled Persons”. In this regard, display of the activities, efforts and achievements in the field of science for human welfare were carried out. Students of III, II & I year BTMC attended inspirational video on “Science and Technology for Specially Abled Persons” conducted by various departments of Little Flower Degree College. The objective of the events was to discuss all the issues and implement new technologies for the development of the science. The program encouraged scientific minded students in the college thereby popularizing Science and Technology.

Mr. Daniel and Mr. A. Vignesh, students of III year and II year BtMC participated in a Quiz program conducted on the topic “Microbes in Daily life”. They also presented poster on a science topic titled “Probiotics” at Bhavan’s Vivekananda College of Science, Humanities and Commerce.

National Science Day at Bhavan’s Vivekananda College of Science, Humanities and Commerce

National science day is celebrated every year on 28 February. As a part of National science day students were oriented to demonstrate various science projects in recent advancements of science. They also presented a poster on a science topic titled “Probiotics” at Bhavan’s Vivekananda College of Science, Humanities and Commerce. The program encouraged scientific minded students in the college thereby popularizing Science and Technology.

Innovative Scientific Approaches for a Sustainable Environment

Ms. J. Usha Rani, lecturer in Microbiology and **Ms. M Rama Devi**, lecturer in Chemistry attended one day national seminar on **Innovative Scientific Approaches for a Sustainable Environment** organized by Faculty of Life Sciences St. Pious X Degree & PG College for Women in association with TELANGANA ACADEMY OF SCIENCES (TAS) on 14th March, 2017. Eminent speakers from IICT, JETL and other prominent organization delivered talks on various aspects of scientific approaches for sustainable development. **Prof. D. Suresh Babu** Regional Coordinator gave an overview of the

activities of TAS in disseminating the science knowledge. **Dr. C.P. Vardhani** District Coordinator-I, Telangana Academy of Sciences Hyderabad, District and **Rev. Sr. G. Manikyam** Principal, St. Pious X Degree & PG College Nacharam, Hyderabad distributed certificates to the participants.

GLOBALIZATION

World is becoming more and more interconnected. Never before in human history has there existed such an interrelation between International trade, Communication and Politics. It is therefore an opportunity and sometimes a challenge. The guest lecture on 'Globalization'- given by Dr Yasmin of Nizam College highlighted the Economic, Political and Social issues and its problems, which are limited not only to national level, because the world has become interdependent.

She highlighted the features of Globalization:

Free access to the markets in the world without any physical or fiscal restrictions. Globally standardized product needs to be marketed all over the world. Globalization requires resources like raw materials, finance and technology and free access to them.

Dr. Yasmin spoke about its impact on India. The liberalization of the domestic economy and the integration of India with the global economy have helped step up GDP rates. India needs to concentrate on important areas to achieve this goal. Areas like technological entrepreneurship, new business openings for small and medium enterprises. In conclusion, Dr. Yasmin, stated that 'political will' is missing due to which strong civil society movements and uprisings are growing fast in India which is impacting the positive implications of Globalization in India.

MODERN REFORMS IN CONTEMPORARY IN INDIA

One day National Seminar in Little Flower Degree College was organized by the department of Political Science. The topic of the seminar was " MODERN REFORMS IN CONTEMPORARY INDIA". Students and faculty from B.A and B.Com of LFDC and several other degree colleges attended the seminar. The seminar was divided into three sections.

Section one was on *Women Empowerment* and the Resource Person was Dr. P.Aruna Reddy (Director, Learners' Circle and Reader and HOD of Political Science, Kasturba Degree & P.G. Women's College) and Mrs. Shiela Suresh (Advocate, High Court) the guest speaker. The speakers made excellent points and insightful quotes, making the first session interesting and informative. Their language was easily comprehensible. After them the students who had researched on Women Empowerment presented their papers.

Section two was on *Tribes of India* and the Resource Person was Dr. Arjun Rao (Dean College, Development Council, Dept. Of History, OU) and the guest speaker was Prof. Byomkesh Tripathy (IGNTU, Amarkantak, Madhya Pradesh). In the second session the students were enlightened about the existing tribes of India as well as the vanishing tribes. They spoke about the need to reach out and help these tribes who live a life full of uncertainties and difficulties. The speakers and the students provided informative statistics, facts about the various tribes and their culture and traditions.

Section three was on *Rural Sanitation*, a topic that is in the news due to the present government. The resource person was Mr. E. Govind Raj, (Associate Professor & CAO, NITHM) and the Guest Speaker was Dr. K. Dayanand Rao (Special Officer TVVP). They emphasized the fact that the development of India is linked with rural sanitation. They highlighted the pathetic conditions of women due to lack of sanitation in rural areas and suggested ways to improve sanitation in rural areas. This session saw many paper presentations from students on water conservation and proper health care which is linked to proper sanitation.

The seminar concluded with a vote of thanks to resource persons and guest speakers and memento presentation to them by Rev. Bro Jaico.

Political Science Day

The students of Little Flower Degree College from the Department of Political Science held a Political Science Day. National and international events were highlighted. Both past and current events that changed the world, both politically and economically were displayed by the students.

Topics like Demonetization of currency, women politicians who left a mark on India, the infamous Vietnam War, relation between India and Laos to name a few were spoken, debates and discussed with power point program, charts and models.

The students did a thorough research on the various topics to make it very authentic.

Also the Political Science Day was an opportunity for the students of B.A to show their communication skill as well as to improve their knowledge in politics, both national and international

A national convention on '**Fostering Youth Leadership For Social Change**' by Carmel College for Women, Nuvem-Goa was organized to tap into the dynamism of our youth for they have the potential to be the most creative and vibrant forces for social change. The Catholic Church and the the training insitute under them do strive to hole the spiritual and personal development of the youth, aiming to empower them to become leaders and agents of social change in their schools, colleges, communities, social groups and to develop the youth in understanding the value of self-service and social justice.

At the World Youth Day, 2016 held at Karkow, Poland, Pope Francis expressed these concerns to the large gathering of youth around the world. He said. " It is hard, and troubling, to see young people who waste their lives looking for cheap thrills or a feeling of being alive by taking dark paths, and in the end having to pay for it" His Holiness urged the youth to feel the power of leadership, in taking stand against injustice and the prevalent social evils and in building bridges of fraternity and communion in a polarized world.

Five students from **Little Flower Degree College** along with a faculty member participated in the national convention. The 3 days convention was extremely thought provoking and fruitful.

The conference covered the following sub-themes:

Youth Leadership in Catholic Faith Enlivening in Catholic Institutes

Youth Leadership in Community and Social Service- social change through media

Youth as Green Ambassadors

Youth for Pro-life, Family Values and Healthy Interpersonal Relationship

Dealing with Value Conflicts in Youth

In between the sessions cultural display, power point presentations on environment, guided tour of churches by Fr. Alfred Vaz were done , which only added to the wonderful experience of us. The National Convention concluded with an interactive session followed by valedictory function. The trip to Goa was not only a spiritual experience but humbling as well.

SPORTS

Dept of Physical Education

BADMINTON : On 20th & 22nd December 2016 our LFDC (M&W) badminton team participated in Sakshi arenaone tournament at MCH Badminton court, Ameerpet.

FIELD TRIP TO SADHANA INSTITUTE FOR CHILDREN WITH SPECIAL NEEDS

A Field trip to Sadhana Institute for children with special needs, Nacharam, was arranged on 25th July 2016 for BA (Psy) I, II, III year students. Two Faculty members accompanied the students. We started from the college in the college bus at 10.30 am. On reaching the location we were welcomed in a warm manner. Students were allowed to visit the children.

Mr.P.Madhusudhan Reddy and Mrs.Surekha are Founders of Sadhana. Sadhana is non-profit, non-commercial voluntary organization dedicated to the welfare of the mentally challenged based in Nacharam, Hyderabad, Telangana, India. The Institute started with 2 students in 1996. Today the Institute is serving 182 mentally challenged persons. The boys and girls are accommodated in two separate buildings with a common dining facility.

Visit to such a committed and dedicated organisation was a very good exposure to our students. The children with the special needs include mentally retarded, Autistic, Learning Disabled and the like. The very sight of the children is heart touching. The commitment and concern of the teachers who are taking care of the children is appreciable. We also visited the old age home in the same premises where old mothers were taken care of. Talking to the old people moved the hearts of the students.

A special appreciation to the couple Mr.P.Madhusudhan Reddy and Mrs.Surekha the Founders of Sadhana, who are running the organisation with great love and commitment for the children and old mothers, without seeking any benefit. At the end we distributed biscuits to the children.

I am assured that students did have a very good exposure to the service that specially challenged children need.

Psychology Fair

A Psychology Fair held on 23rd November 2016 in the premises of the College was first of its kind in the History of Department of Psychology, LFDC. Students of BA I,II,III years prepared the exhibits from various topics of Psychology. These exhibits were attractive and informative for they had been prepared and designed well by the students with guidance from the Faculty of Psychology. The students were obviously enthusiastic about their work. The exhibits were made from topics of Psychology which include introduction to Psychology, Attention, Memory, Intelligence, Prosocial Behavior, Transfer of Learning, Learning Disabilities, Autism, Counseling, Careers opportunities in Psychology and the like.

Students and Staff of Degree College were invited to visit each exhibit and gain some quality information about Psychology. Students were made to play some memory games and winners of the same were given chance for psychological testing.

Two staff members of Junior College were invited to judge the exhibits on listening to the explanation of the Students.

Principal Rev. Bro Jaico Gervasis and Vice Principal Mrs. Jayanthi Reddy did visit the Fair and Congratulated the Students and Faculty of Psychology.

To conclude it was a awesome experience for the students and Faculty of Psychology, LFDC. Report submitted by

FACULTY DEVELOPMENT PROGRAM

For the betterment of Faculty of LFDC, Department of Psychology has conducted a Faculty Development Program on 30th Dec 2016. The speaker for the day was Dr. Padmaja, Assistant Professor, UOH. She spoke on the topic "Understanding the Individual Differences". As part of this, she discussed about the Transactional Analysis and Communication which is a psychoanalytic theory and method of therapy wherein social transactions are analyzed to determine the ego state of the patient as a basis for understanding behavior. Transactional analysis, developed by psychiatrist Eric Berne, is a form of modern psychology that examines a person's relationships and interactions. According to Berne, an ego state is a consistent pattern of feeling and experience directly related to a corresponding consistent pattern of behavior. Berne defined three ego states that can be confirmed by observable behavior: the parent, adult, or child.

The Faculty were engrossed in listening to Dr. Padmaja's lecture as she was relating the classroom interactions and experiences with the theory. I am assured that the lecture helped the Faculty to know their personal ego states and the ego states of the students as well. I am also assured that this Program would guide the Faculty to understand the individual differences among themselves and the students.

Habits of Success

In order to encourage and motivate the first year students of all the groups (BA, BCOM, BTMC), the College management has organized a seminar. The speaker for the sessions was Bro Yuju Francis and Bro Yuju Francis is a trained psychological counsellor.

He has a PhD in counseling psychology from Sampurna Institute of Advanced Studies, Bangalore. He has a Masters degree in Holistic Psychological Counselling from Bangalore University and a Diploma in Counsellor Training and Management from Sampurna Montfort College, Bangalore. He has more than 12 years experience as a counselor, therapist and a trainer. He was a faculty with Montfort College, Bangalore for 5 years.

Bro. Yuju Francis spoke to the students on the topic "Habits of Success". As a part of this, Bro. Yuju spoke about Planning in advance, and emphasized on the words of Richard Cushing. "Always plan ahead. It wasn't raining when Noah built the ark." Also he spoke about what kind of stuff one should fill in one's mind with a jar example. Other aspects were Paying attention to the important things in your life, Time management, setting goals etc. Sessions were very thought provoking and beneficial to the students.

RESEARCH WORK- Survey

Students of Final BA were given research experience by making them to conduct small survey on various topics like anxiety, family environment, general well-being, aggression, self-esteem, life orientation-optimism and pessimism. Students collected data from undergraduates using the questionnaires of the topics mentioned. After collecting the data, suitable statistics like correlation for example is applied on the data and analysis is done. Results and conclusions are written. By doing this survey students got good exposure of field work and learnt the concepts of research work.

ORIENTATION PROGRAM

On 24/01/16, Osmania University conducted an orientation program for the newly introduced "GENDER SENSITIZATION" Paper. Two Faculty members of Psychology, Ms. Alice Nassy and Ms. RB. Shashi Rekha attended the program.

After the registration first session was taken by Prof. M. Chenna Basavaiah, who gave an overview about Historical background of Gender, Gender and Socialization, Gender Inequality, Sex Selection, Sex Ratio.

Second Session was taken by Prof. G.B. Reddy. He discussed about Constitutional and legal Perspectives of Gender. He also discussed about the legal laws of Sexual Harassment, Domestic Violence etc. This session was followed by lunch. Prof. Sumitha Roy took up the third session. She discussed about Gender and Media, Emerging issues and Challenges.

Field Trip to "The Hindu"

The students of I B.Com Cs and General were taken to a field trip to "The Hindu" press, Habsiguda on 20th & 21st March, 2017 at 11.30 A.M. They were accompanied by the Department of commerce. The incharge of Habsiguda unit of The Hindu Mr. Vinod Gupta conducted a tour of the press. The origin of the paper was explained to the students and they were shown the method by which they manufacture their own ink for printing. The students were explained how the paper cuts costs by purchasing the paper for printing from foreign countries when the dollar rate is low.

The machines for printing were shown and explanation was given on the method of printing. The generators used for printing and the systems were shown. The students were given insights into the cost of printing a newspaper and told how most of their costs are covered by advertisements. The students were invited to present articles in their paper and they were also told about the employment opportunities in Hindu. The students had a good time and also gained valuable knowledge. The students returned to the college at 1.30 P.M

Ms. Pannaga

Women Across Boundaries

On receiving the invitation from St. Pious Degree College Nacharam, five students of BA (I,II,III) and one Faculty Member (Ms. Alice Nassy) from LFDC, has attended the seminar titled "Women Across Boundaries" held on 22nd of November, 2016.

The seminar was an interblend conclave for the students of English Literature, Psychology and Mass Communication. Speaker for the First session and Second were Prof. Sumitha Roy and Tina Fernandes. Both of them spoke about opportunities women have with regard to further studies and career, in Literature and Psychology respectively.

It was a good exposure for the budding BA students. Students felt happy for being given this chance to participate.

VANIJYOTHSAV

The department of Commerce has organized an inter Collegiate Commerce Fest. As part of this one day fest events like Poster presentation, Power point presentation, Crossword, Word Building, Debate and Quiz were conducted.

The first event of the day was Poster presentation competition. The topics were "GST and IFRS". There were nine participants competing for this event. The judges for the event were Mr. Rajashekhar and Ms. Vasavi from Little Flower Junior College, Uppal. In the above events, the teams were judged on the basis of their command over the concept, presentation skills and creativity.

The second event was Power point presentation. The judges for Power point were Mr. Rajashekhar and Ms. Vasavi from Little Flower Junior College, Uppal. Crossword and Word building was conducted by Mr. Ravi from the Department of Commerce.

The post lunch session was Debate and Quiz. Sixty students participated in the Debate. The participants were divided into groups. It was a business quiz and the questions were based on recent trends in Trade, Industry and Commerce.

The programme came to an end with the Valedictory function. The principal of the college Rev. Bro. Jaico distributed prizes and certificates to the winners and participants.

Ms. Pannaga

Dept of Statistics

INTRA COLLEGIATE COMPETITIONS

The Department of Statistics has conducted Intra Collegiate competitions on the eve of the Birth anniversary of Prof.P.C.Mahalanobis. The students of II, III BSc participated in the events such as Aptitude test and Applications of Statistics. The Aptitude test and Applications of Statistics were written exams. Students also presented Power Point Presentations on the history of Prof.P.C.Mahalanobis. The prizes were awarded to winners on Farewell day By our principal Rev. Bro. Jaico Gervasis.

Students writing Aptitude Test and 'Applications of Statistics' on the occasion of National Statistics Day

STATISTICS AND ITS OPPORTUNITIES

Mr Ramu gave a seminar on statistics and its importance in real life. He explained how it will be applicable in private and government sectors. In general, statisticians work for Marketing, Business & Finance, Data Science, Journalism etc. Statisticians have various opportunities in government sectors like ISS, RBI, NSSO, ADO, ASO etc. They help in developing the country to improve votes targeting and assess the success of government policies. He explained statisticians are also needed in private sectors in various fields like in data analysis, marketing research, business analysis, software designs etc.

Students attended STATA FEST

Students from B.Sc – II year and III year participated in "STATA FEST" on 9th December 2016 held at St. Ann's Degree College.

Raman Sai of BSc(MSCs) 3rd year participating in STAT VOICE competition conducted by St Ann's College for Women

Applications of Statistics in Real life

Dr. Naveen, Scientist B, NIN gave a lecture on the topic “Applications of Statistics in Real life”.

There are so many applications in our daily life from a simple mobile phone to the server used in large companies.

Statistics is used in our daily life. We use statistical data to back our every day decisions such as buying household goods, which are reliable to stock up on popular food during festivities. Many are scared of statistics due to the complicated formulae. This unit is to help students grasp the fundamental concepts of statistics and understand what statistics mean to them in their daily lives at every stage and in every aspect of our activities.

Statistics is use even at the origin stage of human beings. Certain statistics are used such often that we hardly feel that we are using statistics.

Dr Naveen concluded the seminar by giving the use of statistics in our daily life like for weather forecasts, predicting disease, preparing for emergencies, medical research, tracking sales, genetics etc. Statistics lends credibility to these industries and makes it easier to track different things in the industry.

**Principal Rev. Bro Jaico, presenting a memento to the speaker
Dr. Naveen, Scientist B, NIN**

Attended workshop On R-Software and Data sciences

On the occasion of Golden Jubilee celebrations of OU ,Department of Statistics_Conducted a two day work shop on R-software and data sciences on 20,21 Jan 2016 in the premises of Department of Statistics - OU Hyderabad . Around 50 members participated from different fields like IT-industry, research scholars , faculty and research organizations.

The sessions mainly concentrated on the following topics.

Data bases and data architectures.

Data bases in the real world : scaling ,data, quality, distributed.

Machine learning/data mining/statistics

Information retrieved

Data mining /data analytics

Data analysis using R-language

The work shop was concluded successfully with awarding participation certificates to all participants.

Literary, Science, Cultural & Sports Week

The college organises literary, science, cultural and sports week to provide the right channel for the expression of various talents amongst our students, to facilitate their all-round moral, mental and physical development and to make their leisure constructively recreational, adventurous and socially useful.

Students displaying their creativity

Sports Week

Valedictory of Literary, Science, Cultural and Sports Week

Apart from academics, we at LFDC give a lot of importance to the holistic development of our students. Keeping this in mind, we help our students excel in competitions like debates, essay writing, PPT, poster and paper presentation, model display in physical sciences and life sciences.

The cultural milieu and extravaganza is promoted through Clay Modeling, Collage Making Painting, Drawing, Flower Arrangement, Group Dance, Mehendi, Mono Acting, Fancy Dress, Nail Art, Rangoli, Singing, Solo Dance and Vegetable Carving.

A variety of games and sports like Lemon & spoon, Three Legged Race, Volley Ball, Throw Ball, Kho-Kho, Chess and Badminton were conducted to inculcate the sense of Teamwork and Co-education.

A much-vaunted valedictory ceremony was held on 2nd December. It was graced by the dignitaries from all fields, namely Dr. Syed Rehman, Principal of Nizam College, Mr. Noel Sean, famous Rapper and Singer and Mr. Dharmaraj Charlathan, an acclaimed International Kabaddi Player.

All of them stressed upon the importance of discipline in a student's life and they even gave examples from their own lives. Another important aspect that came out from their speeches is that, all of them, as students have to vow; to fulfill the dreams and aspirations of their parents.

The dignitaries distributed prizes to all our achievers in the field of Literature, Sciences, Cultural and Sports.

Principal Rev. Bro Jaico Gervasis , Rapper and Singer Mr. Noel Sean, Principal Nizam College Dr. Syed Rehman, International Kabaddi Player Mr. Dharmaraj Charlathan and Vice Principal Mrs. Jayanthi Reddy graced the dias.

Dr. Syed Rehman, principal of Nizam College, distributing Literary & Science events prizes

Mr. Noel Sean, famous Rapper and Singer distributing prizes for Cultural events

Mr. Dharmaraj Charlathan, an acclaimed International Kabaddi Player distributing prizes for Sports events

Spectacular performances by the students

NSS Activities

(National Service Scheme)

INTERNATIONAL YOGA DAY

On the occasion of International Yoga Day on June 21st, a free session on Heartfulness Relaxation and Meditation was held at Gachibowli Stadium.

International Yoga Day, is celebrated every year on June 21. International day for yoga was declared by the United Nations General Assembly (UNGA) on December 11, 2014. Today 21st June, 2016 the world is celebrating **second International Yoga Day**. The preparations for this grand event had begun across the globe weeks before. During the event matters related to world **yoga day 2016 were discussed**. Its logo and theme or slogan/symbol and some interesting yoga videos and pictures and places (which city of India) and where this event is usually held, were discussed. This article would be important for students who are preparing for essays for different competitive exams. Declaration of International Day of Yoga is the great moment for India in the history. It took less than three months to be declared as the World Yoga Day by the United Nations General Assembly.

Last year, the UN declared June 21st as International Yoga Day, with the support of 170 nations, after Hon'ble Prime Minister of India, Shri Narendra Modiji's clarion call to the world community to celebrate Indian yoga at the international level in his speech at the United Nations General Assembly in September.

Telanganaku Harithaharam (Kapura Dump Yard)

The NSS Unit volunteers of LFDC, participated in the plantation program at Kapura dump yard. The chief guest for this program was K.Taraka Rama Rao Garu, honorable minister of Municipal Corporation and IT. He spoke about the importance of the harithaharam and advised them to sincerely support in making Hyderabad a green city.

Telanganaku Haritha Haram, a flagship programme of the Telangana Government envisages to increase the present 24% tree cover in the State to 33% of the total geographical area of the State. The thrust areas to achieve the above are two-fold. One is to initiate in notified forest areas, and the other is outside the notified forest areas.

National Forest Policy of India envisages a minimum of 33% of the total geographical area under forest / tree cover to maintain environmental stability and ecological balance, which is vital for sustenance of all life-forms, human, animal and plants.

TIRANGA YATRA

LFDC NSS Unit participated in Tiranga Yatra rally followed by a meeting at Bhagya nagar function hall. The Chief Guest for this program was Perala Shekar Rao, Chairman of Nehru Yuva Kendra and NSS state cell chairman Dr. MSN Reddy and other local leaders. After felicitating the freedom fighters, the Chief Guest spoke about the history and importance of national Flag.

The Present Government sees the Tricolor as a symbol of Unity and Integrity of the Nation and would inject fresh fervor of nationalism among the countrymen.

On 15 August, India celebrated the 70th anniversary of her Independence. The present government instructed all the leaders, office bearers and grass root workers to go to their respective constituencies with the tricolor flag and spread its significance. The Prime Minister, advised the countrymen to pay homage to our freedom fighters for their unforgettable role in India's fight for Independence. The Nehru Yuva Kendra and NSS combined took note of the Prime Minister's advice to the countrymen and organized this programme and made it a grand success.

INTERNATIONAL YOUTH DAY SEMINAR

The program started with a rally from Dr B R Ambedkar College to Sundaraiah Vignana Bhavan, Baghlingampally, followed by a seminar. The chief guest for this program was Prof Gopal Reddy, OSD to Registrar, O.U, and The youth icon Madhu. Prof Gopal Reddy spoke about the importance of the International Youth Day. The theme of the 2016 International Youth Day was "The Road to 2030: Eradicating Poverty and Achieving Sustainable Consumption and Production".

This Day was about achieving the 2030 Agenda for Sustainable Development. It focuses on the leading role of young people in ensuring poverty eradication and achieving sustainable development through sustainable consumption and production.

TELANGANAKU HARITHA HARAM AT LFDC

Our NSS Unit volunteers participated in plantation program at Little Flower Degree College, Uppal. The chief guest for this program was Principal, Bro Jaico Gervasis, who spoke about the importance of the Harithaharam. This program continued for a week from 11th July to 18th July 2016.

RASHTRIYA EKTA DIWAS(NATIONAL UNITY DAY)

LFDC celebrated Rashtriya Ekta Diwas(National Unity Day) on 31-OCT-2016.

The organizers explained to the NSS Volunteers about the importance of Rashtriya Ekta Diwas, followed by the pledge.

Rashtriya Ekta Diwas(National Unity Day) was established by the Government of India inaugurated by the Prime Minister, Shri Narendra Modi in 2014. The purpose of this day is to pay tribute to Vallabhbhai Patel, the first Home Minister of India, who was instrumental in unifying India after Independence.

Rashtriya Ekta Diwas is celebrated every year on 31st to commemorate the birthday of Sardar Vallabhbhai Patel, who is also known as the Iron Man of India. The official statement for Rashtriya Ekta Diwas by the Home Ministry India cites that the National Unity Day “will provide an opportunity to re-affirm the inherent strength and resilience of our nation to withstand the actual and potential threats to the unity, integrity and security of our country.”

He is credited with the integration of over 550 independent princely states of India from 1947-49 by Independence Act (1947). He is known as the “Bismarck of India”.

The theme for 2016 celebrations was "Integration of India".

NATIONAL VOTERS DAY 3K RUN

The government is gearing up to celebrate the 7th National Voters Day on January 25 with “Empowering Young and Future Voters” as the theme. With regard to the celebrations, our NSS volunteers participated in 3K Run. The program started at 6AM, flagged off by Prof.S.Ramachandran, V.C, O.U. The rally started from Arts College O.U to NCC gate.

The main objective of this program is to create awareness on the importance of casting votes. The NSS volunteers who participated in this program also participated in “NATIONAL VOTERS’ DAY CELEBRATIONS” which was held at Ravindra Bharathi

University Level Youth Festival

Taking the privilege to represent L.F.D.C we (Varsha.D, Pavan.A, Sharon, Phani. Mani sai and Tejesh.R) participated in the competitions held on 03-02-2017 by N.S.S which strives to make a change and bring out the talent among the candidates in every corner of Hyderabad.

We feel proud to acknowledge that various competitions were held by N.S.S, ranging from quiz, debate, essay writing to cultural competitions like singing and dancing on patriotic and devotional themes.

Pavan.A and Phani.k participated in debate, Varsha and Mani Sai in quiz ; Tejesh, Sharon Rose in Elocution and Essay writing respectively.

The topics given for Debate, Elocution and Essay Writing were challenging and thought provoking and in tune with the prevailing political and social scenario.

CENTENARY RUN

Arts College, Osmania University, which was the epicentre of the Telangana agitation, organized a marathon called “Centenary Run” on 11th March 2017, where over 10,000 people participated. It was flagged off by Prof S Ramachandran, Vice Chancellor, Osmania University.

As pro Telangana songs echoed on the campus, the early morning rays of the sun kissed the College’s granite structure, a sea of humanity sporting white T-shirts and caps converged in front of the college and participated in the marathon. Participants included students from the university and affiliated colleges, Teaching and Non-teaching Staff, alumni and joggers from the neighborhood. Around 200 NSS volunteers, 500 NCC cadets and 150 Sports officials from different colleges were present to ensure an incident-free event.

The run commenced on University road passing the Law College, Women’s hostel, the Engineering College and it concluded near the NCC gate. Drinking water and snacks were distributed at various places along the route. Later the participants converged near the Arts College and tri-color balloons were released to mark the occasion. The precincts of the Arts College wore a festive look with colorful flags and ribbons.

This event was a success due to the active participation of volunteers from 14 organisations and the cooperation of the teaching and non teaching staff, research scholars, students, alumni, NSS, NCC, former Vice chancellors and Vice Chancellors of other Universities in Telangana. Sports officials from the Sports Authority of India, physical instructors from affiliated colleges, medics were in attendance to meet any emergencies.

NATIONAL VOTERS DAY CELEBRATIONS

The National Voters' Day is celebrated every year to mark the foundation day of the Election Commission of India, which was established on 25th January, 1950. The purpose of celebrating the day is to increase enrollment of voters, especially young voters. The day is also utilized to spread awareness among voters regarding effective participation in the electoral process.

The theme of this program was "Empowering Young and Future Voters".

PULSE POLIO IMMUNISATION REPORT

Pulse Polio is an immunisation campaign established by the government of India to eliminate polio in India by vaccinating all children under the age of five years against the polio virus. The project fights poliomyelitis through a large-scale pulse vaccination programme and monitoring for polio cases.

Oral polio vaccine will be administered to children through booths set up in hospitals, health centers and various public places. LFDC NSS volunteers participated in the Pulse Polio Immunisation Programme which was held on 29th January 2017 at Government Maternity Hospital Koti. They gathered at 6AM at Koti and they started administrative immunization to children belonging to age group 0 to 5 years.

INTERNATIONAL ANTI-CORRUPTION DAY

The ACB wound up its week-long IACD celebrations with an event at the “Sarojini Naidu Vanita Mahavidyalaya” in Nampally area where it felicitated complainants in 'trap cases', as well as gave away special prizes to students who won in essay writing competitions. The event was attended by about 700 students from various schools, colleges in the city and ACB staff from its city units.

The Anti-Corruption Week celebrations were launched to educate the people about ill effects of corruption, and to bring awareness about the functioning of the Anti-Corruption Bureau, which started from 3rd Dec to 9th December, on the last day the ACB chief and Hyderabad deputy collector attended the program. LFDC NSS volunteers attended this program and made it successful.

RED RIBBON CLUB PROGRAMME

Red Ribbon Club is a movement started by the Government of India in schools and colleges through which, students spread awareness over HIV / AIDS. It envisages to instil charity mind among all the students to extend their able help towards developing healthy life styles, donating blood to all the needy by promotion of Regular voluntary blood donation.

Osmania University NSS cell conducted an Orientation programme on RED RIBBON CLUB in association with Telangana State Aids Control Society, Hyderabad. For this programme the chief guest was Dr. M S N Reddy, State NSS officer, and the Guest of honour was Dr. Vishnu Dev, NSS Programme Co-ordinator, O.U. Red Ribbon Club explained the importance of this event and they asked to start Red Ribbon Club in their respective colleges. This Programme involved two volunteers and Programme officers and we made this programme a grand success.

RED RIBBON SYMBOL

The red ribbon is a symbol for both drug prevention and for the fight against AIDS. The Red Ribbon foundation is an organization founded in 1993 whose main purpose is the education about prevention of the Human Immunodeficiency Virus or HIV, Acquired Deficiency Syndrome Related Complex, ARC and AIDS.

SWACHH BHARAT

As a part of NSS Regular activities Little Flower Degree College, Uppal conducted SWACHH Programme, NSS volunteers actively participated in the programme and they cleaned surroundings of the college. This programme was initiated by Prime Minister of India Mr.Narendra Modi NSS volunteers stressed on the importance of the cleanliness.

The Campaign was officially launched on 2nd October 2014 at Rajghat, New Delhi, by Prime Minister Narendra Modi.It is India's largest cleanliness drive with 3 million government employees, and especially school and college students from all part of India, participating in the campaign.

WOMEN'S DAY CELEBRATION

LFDC NSS Unit has organized a seminar for the NSS Volunteers on the awareness of 'SHE' teams on 8th March 2017 (International Women's Day).The guest speakers were Mr.Srinivas, Inspector of Police, Mr.AshokNaik, Head of SHE team and Mrs.Bharthi, Constable.

They showed documentaries on the consequences of committing crime against women .He presented examples from history about famous women who have scaled glorious heights in every field with determination and hard work. He advised the NSS volunteers to be 'BOLD' at all times.

The event concluded with an introduction of the girls from SHE team, and presentation of mementos by Rev.BroJaico as a token of appreciation to members for rendering service to society.

Awareness programme organised by Dhoolpet CI, R. Srinivas along with 'SHE' Team

Graduation Day

Little Flower Degree College celebrated the 4th Graduation day on 3rd February 2017 in a resplendent manner.

The Principal Rev. Bro. Jaico, in the welcome address exhorted the graduates to impart the values learnt in the college and make a difference in the world. The Chief Guest, Prof. Dr. Sunaina Singh, Vice-Chancellor, EFLU, advised the graduates on making a mark for themselves and to have never give up attitude. The Guest of Honor, Dr. Rakesh K Mishra, Director of CSIR –CCMB, emphasized the need for hard work and determination to fulfill their set goals. He encouraged the students to pursue research and extended an invitation to visit CCMB to know how research is done in Modern Biology.

It was a moment of great pleasure and pride for the college as about 100 graduates from different disciplines, i.e., Humanities, Science and Commerce were conferred degrees by the distinguished guests. The Vice Principal Ms. Jayanthi Reddy, along with staff and students played a key role in organizing the event and made it a grand success. The ceremony concluded with the reminiscences of the graduates.

the completion of graduation.**

Annual Day

Little Flower Degree College, Uppal, celebrated the 7th Annual Day with pomp and grandeur.

The principal of our College Rev. Bro. Jaico in his welcome address reminded everyone that what we are today is due to the struggle of our parents. He advised the students to achieve their goal and uphold their reputation.

The Chief Guest, who graced the occasion, was Dr. Rampulla Reddy, IAS, Director general, NIRD Hyderabad. He motivated the students to maximize their potential and contribute to the society. Special awards to the toppers in academics were presented by him. Parents of the college toppers had also been invited and felicitated.

The Vice Principal, Ms. Jayanthi Reddy along with staff and students worked in one accord for the success of the event.

The programme concluded with scintillating performances, celebrating the culture and tradition of India.

Principal Rev. Bro. Jaico Gervasis & Vice Principal Mrs. Jayanthi Reddy, felicitating the Chief Guest Dr. Rampulla Reddy, IAS, Director General, NIRD, Hyd

Best Class 2016-17 : I BCOM CS(A)

Addressing the teachers he said that teaching is a noble and most cherished profession. He also emphasized on having a burning desire among students to grow and acquire different skills and master them too and also encouraged them to face challenges and work with great commitment and effective time management. Amongst the dignitaries, who graced the dias, V. Vijay F/O V. Victoria Asservadham (III BtMC) , M. Leela Rani, M/O M. Sai Mamatha (III BSc, MSCs) were invited as Guest of Honour as their wards are the college toppers in their respective disciplines. It was a moment of pride for them and a motivational moment for students. Special prizes were awarded to the students who excelled in Academics, Literary, Cultural and Sports competitions. The event ended with some scintillating dance performances by the students.

Principal Rev Bro Jaico Gervasis, Chief Guest Dr. Rampulla Reddy, IAS, Director General, NIRD, Guest of Honour M. Leela Rani, M/O, M. Sai Mamatha (III B.Sc MSCS), V. Vijay F/O Victoria (III BtMC), Vice Principal P. Jayanthi Reddy, graced the dias.

Chief Guest giving special awards to meritorious students.

Spectacular Performance of Students on Annual Day.

Farewell Day

On the 18th of February 2017, the college witnessed a grand farewell party hosted by the I & II YEAR students. The day started with great excitement and merriment as all the III year students were dressed up according to the theme "RETRO". They looked very gorgeous and splendid in their attires.

The party commenced with lighting the lamp, invocation and oath taken by the final year students. The 100% results of the academic years 2014-15 and 2015-16 were announced by the Vice Principal Jayanthi Reddy. The whole Auditorium resounded with applause as the faculty and students were honored for their dedication and hard work by the Principal Rev Bro Jaico. Certificates were also distributed for the Intra-Collegiate events organized during the academic year 2016-17. The Principal Rev Bro Jaico wished the outgoing students good luck, hoping that they will continue holding best positions in the upcoming university exams and encouraged them to contribute their talent to the society.

The I and II year students hosted a vibrant array of performances, exciting games, a sumptuous lunch and the LFDC contest which enthralled the audience. The beautiful day ended with a mixed feeling of sorrow and love.

Students enjoying the performances of the day

All the students had a gala time and the programme included an emotional video full of reminiscences of the passing out batch, in the college. The students expressed their gratitude towards all the teachers, feeling blessed and fortunate to have been a part of this institution.

Lively performance by students on farewell day

Reminiscences

V. Raviteja
III BSC MECS

All that time, these days will never come back, you might be ready to give away everything else in this world which you have got, and still these days will never come. You will miss college days for sure. You will realize that you have left back your own heaven. Cherish these wonderful memories of college life, live these moments as if there is no tomorrow. Keep the fire you got inside you throughout your life. Conquer your every dream you have in this life and emerge victorious in the end. Wishing, each and every one of you a very successful life. Never let these days go in vain guys. "Live This Moment"

.....I still remember our small mischief in the class room, teasing each other, laughing out loud on a silly joke, eating from each other's lunch boxes before break, fighting on petty issues, competitions on stages, and lot more which is hidden deep in my heart and of everyone's. These memories are just too valuable. The walls of our classroom have known many great moments of our friendship and that walls are like our second home.

It was not easy to read all those thick books.

It was not easy to learn all those long words.

It was not easy to wake up for all those early classes.

But I still thank my lecturers who provided direction to our knowledge and shape to our future. I know, we're one of the naughtiest classes in the whole college but we love you all and would never forget the lessons of books as well as of life that you have taught us. Thank you everyone for making the moments very special for all of us. I will always cherish these moments.

I used to hate holidays of more than 3 days as it always meant being away from my friends which was too unbearable and now we stand on the turning point of our life when we have to move on our different paths. God only knows if ever we would be able to meet each other later in our life. I am also grateful to Facebook, Whats app, Email and Google for uniting us in our friendship chain even when we leave the college. I have made countless memories that I will treasure forever.

Ajay Singh
III BSC MECS

My five years of studying at little flower in intermediate and degree courses would forever be etched in my memory for the rest of my life. The most important lesson I learnt in this College was obedience and discipline which qualities would make one a good human being and a good citizen. I wil cherish the time I studied in the college and I will remember with gratitude the advice and help I received from my lecturers during these years. I advice every parent to make their child an alumni of Little Flower.

S. Pooja
III BCOM CS

I had not embarked upon my first odyssey until my final year in Little Flower Degree . Only then had I realised how many incredible opportunities I'd missed out . You see I, like most people, thought I needed to be inspired, by some external . And that did happen, quite fortunately. The sheer inspiration struck me in forms; extraordinary people, great opportunities, sometimes my own . Little did I know, I could have a part in it, too. It engulfed me, this of ecstasy. It had me biting more than I could chew. It constantly kept on my toes and I revered it. I'd never before been acquainted with such sense of purpose and fulfillment before. I shall remain eternally grateful to the admirable who impelled me till I learnt to do so myself.

Little Flower has not just been a platform that offered knowledge, helped in building character and refined skills. To me, it has been the holy grail I've hungered for my entire life.

G. Manasa
III BCOM CS

A FLOWER CAN NOT BLOSSOM WITHOUT SUNSHINE

G. Hima Lalitha
III BSC MECS

The line says it all, if the sunshine of little flower college would not have fallen on me I would not have been blossomed so, as I am being now. The days which I've spend in my college is like a journey towards my transformations into a better person. My college helped me to excel not just in academics, but also through all the activities with the assistance of the lecturers. I always wondered how my college management used to come up with such incredible activities which have been so beneficial to the students.

Besides academics and subject oriented events, there were cultural related events which included fine Arts as well. These helped students to develop their curricular

and which also meant for refreshment.

We the students of Little Flower are grateful to have an opportunity of electing student Leaders that helped us to enhance ones leadership qualities, to work within a team, to cope up with different personalities because it includes organising events and team work and things as such. All the factors helped me to "blossom " and now I am ready to scatter my fragrance all over.

My time in college has enriched my life in many ways .It has provided me with necessary tools to enhance my skills more,taught me valuable knowledge and eventually will enable me to hopefully become more successful in life

III BSC BTMC

FACULTY DAY OUT

Our beneficent Bro. Jaico Gervasis and our very own Jayanthi Reddy mam, decided to take all the staff members on a whirlwind picnic through the district of Medak.

We started our journey in an opulent a/c bus. Breakfast was served in the bus itself. Throughout the journey we entertained ourselves with a lot of singing, dancing and games.

Our first stop was at the famous Medak Church, which is one of the biggest in South Asia. The mesmerizing, magnificent white granite structure not only stands for peace, but churches a great example of Gothic architecture in India and South-east Asia. And the significance of the church lies not only in its artistic architecture, but also in the bond that it has always shared with the poor.

Next on our itinerary was the Medak Fort, where we had to climb 500 steps to reach the top. A citadel built on a hillock provides a spectacular view of the district.

The Next halt was the Deer Park, where we were served lunch by Swagath hotel. Next on our destination was the Pocharam Dam, we enjoyed a boat ride there.

While returning to Hyderabad we took a detour through Edupayala Temple and were back to pavilion, clearly a day to remember.
