2. CONDUCTED: INTERNATIONAL WEBINAR

Name of the Event :	International Webinar
Title :	The International Peace Day
Date :	September 21, 2020
Venue :	Google Meet
Resource Persons :	Prof. K. Sunita, Dept. of English (Rtd) OU Dr. Thomas Jenkins Sr. Bishop, New Dimensions Ministries Accountant & Chief Financial Officer, Jackson, Mississippi, USA
Participants :	Staff and Students of various institutions (128 Participants)

The International Webinar on the occasion of **International Day of Peace on 21st September 2020** was conducted on Google Meet. The theme of the year was “**Shaping Peace Together**” Students presented posters and PowerPoint presentations on how we can shape peace together. In the first session Prof. Sunitha advised the audience to battle against Corona Virus together and we should not think as individual we should think as one nation. She talked about Global solidarity, which is the need of the hour, quoting “charity begins at home and Peace begins at home”- she said family ties should be strengthened and every family member should contribute. In the second session, Dr. Thomas Jenkins, sharing from history his own experience, in the 1960s Mississippi went through lot of violence and through it he learned that it is very important to lead a peaceful life and not to respond to violence with violence. He said that the members of his family were killed because of the color of their skin, they were shot down and went through lot of violence but they have learnt to walk in peace and they never responded. Dr. Thomas said that violence always destroys nations, cities, and economy. He mentioned that it's easy to respond with peace when we have peace within ourselves. So asked ourselves to ask a question, do we have peace within? Have we made peace with our God? Have we made peace with your family? With friends? He said that when we know how to make peace with others then we know how to make peace within then we will always be known as peacemakers not a peace breaker. Encouraged everyone to be peacemakers

The International Day of Peace was established in 1981 by the United Nations General Assembly. Two decades later, in 2001, the General Assembly unanimously voted to designate the Day as a period of nonviolence and cease-fire. Each year the International Day of Peace is observed around the world on 21 September. The UN General Assembly has declared this as a day devoted to strengthening the ideals of peace, through observing 24 hours of non-violence and cease-fire. This year has been very difficult to all of us and all of us have one enemy together- 'COVID-19'. As we are struggling to fight against COVID, let us all come together, raise voices to share ideas and combat this rival.

The 2020 theme for the International Day of Peace is 'Shaping Peace Together.' Let us celebrate the day by spreading compassion, kindness and hope in the face of the pandemic.

• About the Webinar

Teachers are facing the complicated world of the 21st century. They are fighting ways to find and develop varied teaching skills, learn about time and class management, psychology, learner differences, ICT opportunities, assessment and curriculum planning. As teachers are judged by what they do, it is crucial to adapt to the emerging trends of teaching and working patterns of the 21st century. The webinar attempts to take a comprehensive view of the modern trends in the English Language Teaching. The idea of understanding emerging trends is extremely relevant in the context of new changes that are evolving as part of teacher education in general and in the times of pandemic in particular. The new normal is challenging educators to go beyond the four walls of classroom in designing a curriculum and a befitting assessing platform for the learners. The objective of the webinar is to discuss and demonstrate how to successfully study and incorporate recent trends of English Language Teaching, identify methods to plan a curriculum and assessments to reach out to the wide range of learners available. The three day webinar attempts to focus on contemporary innovations in English Language Teaching, specific strategies involved for effective curriculum design and implementation of various forms of assessments in the present scenario. The keynote address will try to locate the teaching of English language in the larger context of the purpose of education in general and of the humanities in particular. Each session will attempt to materialise latest developments in the field of ELT, which will be contemplated by the experts in the specific area. Webinar shall equip the educators to explore, provide hands on techniques and tools to design a need-based curriculum to assess students' skills in the available literary domain. We earnestly hope that the webinar will usher in new ideas and provide stimulating learning experiences for educators which will enable conceptualisation of theoretical aspects in English Language Teaching.
