❖ Event 1: Poster Presentation

Topic: Infection, Inflammation & anti-inflammatory diets

Venue: Karunya Court

Date: 27 October 2021

Participants: 18

Department of microbiology along with Johann Mendel club organized a poster presentation event on Anti Inflammatory diet that can reduce the risk of infection due to diseases on 27th October in Karunya court. The main objective of this program was to educate the students on inflammatory diseases and how it can be minimized by the use of anti-inflammatory diet instead of heavy dose medicines. Students from second year and final year presented posters on diseases like Asthma, Tuberculosis, Arthritis, Obesity and Autoimmune disorders. The treatment available cannot cure autoimmune disorders but they can control patient's overactive immune response. Many autoimmune disorders can be treated or cured by shifting to anti-inflammatory diet.

❖ **Event 2: World Science Day – poster presentation on Nobel Prize winners**

Date: 11/11/2021

Venue: Karunya Court

Participants: 45 students from various courses

World Science Day for Peace and Development is an [International Day](#) that highlights the importance of [Science](#) in society. World Science Day was celebrated on 11th November 2021 in Karunya Court. Department of Chemistry organized a poster presentation event for World Science Day. Students had presented posters on the Noble prize winners in various fields of science to commemorate their scientific achievements. They highlighted on the great inventions and discoveries that had marked milestone in history of science. Such presentations improve the students public speaking skills, personal development and confidence. It also creates awareness and aptitude among students to take up research as their career.
