- ❖ **Event 1:** Guest lecture by Dr Ravi Kiran, Scientist, Botanical Survey of India, Ministry of Environment, Forest and climate change, Govt of India
Title: Hot Spot Biodiversity areas, Eastern and western Ghats fauna and flora and the diverse Biodiversity
Date & Time of Event: 28.07.2022, 10.40 am
Venue: Montfort hall
Participants: 75

The Department of zoology organised a Guest lecture for Johann Mendel Club to create awareness about Nature, Biodiversity and conservation on the occasion of **World Nature Conservation Day on 28th July 2022** in Montfort Hall. Dr Ravi Kiran, Scientist, Botanical Survey of India, Ministry of Environment, Forest and climate change, Govt of India was invited as the guest speaker for this occasion. The speaker elucidated the Hot Spot Biodiversity areas, Eastern and western Ghats fauna and flora and the diverse Biodiversity in our ecosystem. He also stressed on the importance of conservation and the surveys conducted to identify the indigenous flora and fauna. Students actively participated and had an interactive session with the Scientist. The students discussed about the remedial measures that can safeguard the ecosystem and also the ill effects of introduction of exotic species in the area. The overall outcome of the session was to provide information about the rich biodiversity mother Earth is bestowed upon and how important it is to conserve and protect them to live a harmonious life with nature.

❖ **Event 2: My favourite creation- Video Presentation**

Date & Time of Event: 25.02.2023, 10.40 am

Venue: Room No: P24

Participants: 20

Johann Mendel club organized a video presentation on the topic “**My favourite creation**” on 25.02.2023. Students from B. Sc. BZC, MZC & BTMC I, II and III years took part in the video presentation activity. Around 20 students registered for the event. They had selected the animals which adapt themselves to their habitats, diet, and their adaptability to the ecosystem. They had selected new strategies to become successful in the ecosystem like the beavers’ building dams, the social nature of honey bees, ants, the flight adaptation of birds, the magnificent predators like eagle, tigers etc.

This program gave them an opportunity to analyse, study, gather information and in improving their knowledge. The participants and the audience enjoyed the program and showed keen interest in learning about the Nature’s magnificent creations.

❖ **Event 3: National Science Day 2023**

Title: Global Science for Global wellbeing

Date: 28th February 2023

Venue: Karunya Court

Participants: 25 teams from various courses

The Johann Mendel Club in association with Alan Turing Club conducted a daylong event on the occasion of National Science Day. National Science Day is observed every year to commemorate the discovery of the 'Raman Effect'.

Theme for the National Science Day (NSD) 2023 is " Global Science for Global wellbeing". The main aim of the program is to encourage students and popularize science to develop career in science & technology.

The participants presented their model and gave a vivid presentation on their topics. The Judges were Ms. Jayashree, Lecturer, LFJC and Ms. Harini, Dept. of French, LFDC evaluated their models and presentation patiently with a word of encouragement to each one of them for their extensive study and innovative work.

The valedictory ceremony was organised and the prizes were given away to the winners.
